Re: Appeal for alley parking exemption request/possible amendment for city ordinance sec. 18-356

Members of city council;

I am respectfully requesting to appear before the board and appeal a recent decision by Traffic /Safety Commission to deny a 24 hour parking permit for my work van to be parked in the alley behind my garage.

We have lived at this address since 1988, 15 years of which I have worked as a licensed electrician. For much of this time I have parked either a company van or a company step van in this exact spot without issue. This vehicle is absolutely critical to my livelihood and a highly valued compensation from my employer. It is a new 2015 van that is not unsightly in any way. Without the 24 hour availability of this vehicle I would no longer have transportation to and from Madison Heights, where I work. It is impossible to predict how often I get emergency calls or when. Having my work vehicle located miles away would hinder my response time to those who need these services.

Losing this vehicle will also cause me and my family financial hardship. We are not in a position to afford any additional vehicles and this company van also allows me to carry the necessary tools, equipment and bulky supplies required to perform my trade. Losing the van could potentially mean losing my job. The van is parked at the inside dead end of the alley directly behind my property and has never been in the way of alley maintenance nor has it ever prevented my neighbor from accessing his driveway.

We have always been very diligent on keeping the alley clear of leaves, cutting the grass and picking up trash that is dropped from time to time and packing down the snow. Although we live at the inside dead end of the alley, we maintain the entire alley as none of the other neighbors that boarder it take care of it. We care for it as we do our own property.

In 2004-5 my wife spoke with then Mayor Giudo who assured us that our vehicles both personal and work related would be allowed to park in the alley without offence. Well, that was obviously years ago yet we have never had an issue until recently.

We just want to continue living and working as usual. We've received several warnings and a couple of tickets prior to finding a very temporary place to relocate the work van and we don't see a permanent solution other than receiving the variance being requested by this letter.

Every officer that came out to mention the ordinance agreed it was outdated and many of the neighbors that signed my petition were also surprised how much effort the city was putting into removing my van which was not at issue with any of them. After being told by officers that came out that there were several complaints, we find it difficult to understand this since every one of our neighbors wasn't bothered by the van being in the alley and they understood its presence there.

We do however; have a neighbor that we believe may be the one reporting the complaints. He has a history of having issues with the neighbors around him for years and he is the neighbor we share the alley with. We have tried to be friendly and on many occasions were, as was he. In the past he and we have even considered buying the alley from the city and we have shared common ground on a few other issues as well. But over the years our relationships has been a bumpy road of sorts. On public service days, when we have to park our vehicles in the alley behind our property overnight, he has mentioned being temporarily inconvenienced, although he can still come and go with ease. We are certainly not sure of this and don't want to be the cause of any insult or slander but it just seems oddly coincidental and as a result did not ask his signature on the petition because we didn't want to take a chance and upset him further.

We were eventually referred to Sgt. Steve White who told us "to do what we had to do and if we had any trouble to see him", but we hate to continue to involve him as we are sure he has many more important things to do. We tried covering the van with a tarp to hide the work related writing but were still asked to remove it from the alley.

Since our house and garage were built in 1942, the dimensions of the garage door will not allow for me to park my work van inside.

Please look into my request and find it in your heart to allow the permanent exemption for parking my work van in the alley. I have included all the required documentation to support my request and look forward to attending a hearing or providing whatever is additionally required regarding this matter.

Thank you for your time and consideration.

Respectfully,

Mario Bouchard

If you have a disability and require an accommodation to take the examination, please submit written documentation from a professional (education professional, doctor, psychologist, psychiatrist) to certify that your disabling condition requires the requested test accommodation.

Examination Eligibility of Applicants From Other States or Countries

A person who is licensed as a journeyman or master electrician in another state or country may qualify for examination upon determination by the department that the license was obtained by the person through substantially the same or equal requirements as those of the state of Michigan.

JOURNEYMAN ELECTRICIAN EXAMINATION REQUIREMENTS

- Applicant must not be less than 20 years of age.
- Applicant must provide notarized documentation from present and former employers verifying the applicant has not less than 8,000 hours of practical experience obtained over a period of not less than 4 years related to electrical construction or electrical maintenance of buildings under the direct supervision of a person licensed pursuant to the act. Documentation must include the beginning (month, day, year) to the ending (month, day, year) dates of employment and signed by the qualified master electrician.

Note: The 8,000 hours of practical work experience over 4 years must be attained prior to submitting the examination application.

MASTER ELECTRICIAN EXAMINATION REQUIREMENTS

- Applicant must not be less than 22 years of age.
- Applicant must provide notarized documentation from present and former employers verifying the attainment of 4,000 hours in not less than 2 years of practical experience under the direct supervision of a master electrician, subsequent to initial journeyman issue date.
- If the journeyman license was not issued by the State of Michigan, provide a copy of the license that was issued by the municipality providing the licensing pursuant to the provisions of Section 6 of the act or a statement from the licensing authority that verifies the license issued date.

Note: A separate license is required for an electrical contractor.

Certification and Signature

I certify the information provided is true and accurate to the best of my ability. I further understand falsification of any statement is cause for rejection of application or revocation of license, if issued.

CITY COUNCIL OFFICE

To: Legal via City Clerk
From: Council Office
Date: Jan. 27, 2016
Subject: Requests for work van parking permits

The City Council has received two requests from parties who were turned down when they went before the Traffic commission to ask for permits to park their work vans on their residential property. They were advised that their only recourse was to seek permission from the City Council and they have done so.

Mario Bouchard, 22351 Columbia Street, Dearborn, submitted a letter, petition and photos on Jan. 20, 2016-see attached.

Francis Maroeusz, 3067 Pardee, Dearborn, came to the City Council Meeting of Jan. 26th and was told his request would be referred to legal. See attached for the information he provided at that time. I have asked Sgt. Tim Stacy to provide the paperwork Mr. Maroeusz submitted to the Traffic Commission.

DEPARTMENT OF LAW

TO: CITY COUNCIL
FROM: CORPORATION COUNSEL
VIA: MAYOR JOHN B. O'REILLY, JR.
SUBJECT: CODE AMENDMENT; CHAPTER 18
PARKING OF COMMERCIAL VEHICLES; EXCEPTION
C.R. 1-52-16
C.W. 2-8-16
DATE: FEBRUARY 25, 2016

Currently, the City Code makes it unlawful "for any person to park any commercial vehicle ... on any street within the city or upon private property within a residential area of the city." (Sec. 18-356.) The same Code section includes an exception for individuals who are required, due to their employment, to be on-call 24-hours a day, with a commercial vehicle (e.g., a plumber). This Code section establishes a procedure for these individuals to present proof of their on-call employment status to the Traffic Commission and gives the Traffic Commission the authority to issue permits allowing such commercial vehicles to be parked in residential neighborhoods. However, Sec. 18-356 clearly states that "no such permit shall be issued to an individual who proposes to park a commercial vehicle on property where a garage exists." The Traffic Commission does not have the discretion to waive this portion, or any portion of the Code.

Recently, the Traffic Commission has received two petitions for commercial vehicle parking permits from individuals who have otherwise complied with Sec. 18-356 (proof of on-call employment) and have provided supporting petitions signed by neighbors. However, because garages are located on the petitioners' property, the Traffic Commission is required to deny the request for a permit. Unfortunately, the commercial vehicles used by the petitioners are too tall to fit into the existing garages.

After review, it is recommended that the Council take the following action:

1. MARIO BOUCHARD, 22351 COLUMBIA (C.W. 2-8-16): Mr. Bouchard is a licensed electrician and is on-call 24 hours a day. Mr. Bouchard's garage door opening is 6'11" and the height of his truck is 8'6". There is no driveway at 22351 Columbia; the garage is accessed from a rear alley. The alley

dead ends at 22351 Columbia (photographs are attached) – there is no through traffic. Therefore, it is recommended that Mr. Bouchard be issued a permit to park his commercial vehicle adjacent to his garage in the alley at the rear of his home. The permit will be valid only while Mr. Bouchard's on-call 24 hours a day employment exists.

2. FRANCIS MARDEUSZ, 3067 PARDEE (C.R. 1-52-16): Mr. Mardeusz works for Home Repair Remodeling and is on-call 24 hours a day to provide board-up services, emergency plumbing and/or electrical repair, etc. The height of Mr. Mardeusz's commercial vehicle exceeds the height of his garage door opening. There is a driveway at 3067 Pardee. Therefore, it is recommended that Mr. Mardeusz be issued a permit to park his commercial vehicle at the back of his driveway (furthest from the street). The permit will be valid only while Mr. Mardeusz's on-call 24 hours a day employment exists.

3. It is recommended that Sec. 18-356 of the Code be amended to give the Traffic Commission some discretion to issue permits where there is a garage on the petitioner's property, but the commercial vehicle does not fit in the garage. In this situation, the attached proposed amendment to the Code indicates that a permit may be issued restricting parking to a driveway (where a driveway exists) or to the public street (where is there no driveway).

Recommendation is made for adoption.

Respectfully submitted,

LAURIE M. ELLERBRAKE
Deputy Corporation Counsel

APPROVED:

ORDINANCE NO. 16 – 1529

AN ORDINANCE TO AMEND THE TRAFFIC AND MOTOR VEHICLE CHAPTER (CHAPTER 18) OF THE CODE OF THE CITY OF DEARBORN BY AMENDING SECTION 18-356, ENTITLED “ALL NIGHT PARKING OF COMMERCIAL VEHICLES PROHIBITED.”

THE CITY OF DEARBORN ORDAINS TO:

Amend Chapter 18 of the Code of the City of Dearborn by amending section 18-356, to read as follows:

Sec. 18-356. - Parking of commercial vehicles.

- (a) It shall be unlawful for any person to park any commercial vehicle as defined in section 18-63 or any commercial motor vehicle as defined in section 18-63.1 on any street within the city or upon private property within a residential area of the city.
- (b) This section shall not apply to commercial vehicles or commercial motor vehicles when the operation of such is necessary for the purpose of making deliveries, picking up persons, materials, goods or merchandise, or providing service.
- (c) If a breakdown of a commercial vehicle or commercial motor vehicle prevents its removal from any street, that vehicle shall display warning devices as set forth in section 18-440.
- (d) For the purpose of this section, the term "commercial vehicle" shall also include a trailer used as, or customarily attached to, a commercial vehicle.
- (e) This section shall not apply to pick-up trucks and vans utilized as family vehicles and which bear no commercial message, logo, symbol or equipment.
- (f) Exception: An individual whose employment requires him/her to be on call 24 hours a day, and whose employment requires the use of a commercial vehicle, may present proof of such employment to the traffic commission. The proof presented must include an affidavit from the employer verifying the on-call status and indicating the approximate number of times per month the employee will be called in to work. Upon review of the proof presented, the traffic commission may issue a permit allowing the commercial vehicle to be parked in a residential neighborhood contrary to this section, **subject to the following conditions:** ~~However, no such permit shall be issued to an individual who proposes to park a commercial vehicle on property where a garage exists.~~

1. Conditions:

- a. **If the individual has a garage on the residential property identified on the petition for a permit, and the dimensions of the garage door**

opening would allow the vehicle to be parked fully inside the garage, the commercial vehicle shall be parked within that garage.

- b. If the commercial vehicle does not fit through the door opening of the garage on the residential property identified in the petition for a permit, or if no garage exists, the vehicle shall be parked in the driveway for that property and not on the residential street. When possible, the commercial vehicle shall be parked at the back of the driveway, furthest from the street.
- c. If the commercial vehicle does not fit through the door opening of the garage and there is no driveway on the residential property identified in the petition for a permit, a permit may be issued to allow the commercial vehicle to be parked on the residential street. A permit to park on a residential street shall not be issued if there is a driveway on the residential property identified in the petition for a permit.
- d. Only one commercial vehicle shall be permitted on the residential property identified in the petition for a permit if a permit is granted by the Traffic Commission or City Council. If it is determined that the permit-holder has more than one commercial vehicle on the residential property identified in the petition for a permit, or if it is determined that the permit-holder has obtained additional permits for other residential property within the City of Dearborn, all permits shall be revoked.
