

Theodor R Cunningham
Executive Vice President - Sales and Marketing
General Manager - Minivan Operations

Dear

There has been recent and highly visible media coverage questioning the safety of liftgate latches on 1984 - 1994 Chrysler, Plymouth and Dodge minivans. This coverage is emotional in nature, and may have raised concern among some of the four million owners of Chrysler, Plymouth and Dodge minivans. Peace of mind among minivan owners is very important to Chrysler, so we are writing to explain our views and the actions we intend to take.

Chrysler Corporation firmly stands behind the quality and safety of our minivans, including the liftgate latches. There has been no formal determination that a safety defect exists with minivan latches. However, to help ensure peace of mind that your minivan is safe, Chrysler has decided to provide a stronger latch. We will replace your minivan's liftgate latch with a stronger component at no charge to you.

Because new latches must be tooled and fabricated to fit your minivan, it will take some time to have a supply of new latches available. During the next several months, we will notify you when the proper parts are on hand at dealerships to perform this service action. All you need do when you receive the notice is to telephone your dealer to schedule an appointment. Your dealer will schedule you for the earliest possible appointment as soon as parts availability permits. For more information regarding minivan liftgate latches and anticipated parts availability, please call us toll-free at 1-800-MINIVAN (646-4826).

We believe, and the National Highway Traffic Safety Administration (NHTSA) agrees, that the single most important safety action you can take is to ensure that all occupants are wearing seat belts properly at all times. And, of course, never allow anyone to occupy the cargo area. Also, please ensure that any removable seat has been securely reattached before the vehicle is driven.

NHTSA has been conducting an investigation of the latches on these vehicles. If you have any concerns regarding this service action, you may call the NHTSA Toll Free Safety Hotline at 1-800-424-9393.

Chrysler Corporation has a history of safety leadership. We take it very seriously. We at Chrysler Corporation want you to be safe--and certain.

Sincerely,
