

## QUOTES FROM 'GLORIOUS TO VIEW'

Quote from the film:

"What we learn here, and what we do here, and what we discover here is much bigger than ourselves.

To have deep understandings of the places that our knowledge and discovery can be useful; to listen really carefully to what are the needs of the world, and how we can respond to those creatively.

All of that happens when students and faculty are put in situations of relating and interacting with the world. Whether internationally or locally; through an internship, or a service project, or some kind of creative project.

Research. Policy engagement. Business partnerships. Working on issues of sustainable development; in a community.

***That*** kind of learning that combines the world and the best of the academy . . . is truly exciting and transformative for our students."
