

Notes to CD/Electronic File Usage

Page Sizing

Depending on your pc/laptop settings, and Adobe Reader, Adobe Acrobat Suite, and/or generic PDF file reader settings; the page zoom may diminish or expand on your screen. (This is due to page scan and original size differences, etc.) Please use your drop-down zoom option to correct/resize; typically the “Fit Page” option of the drop-down choices works best.

Web Hyperlinks

Within all areas of this document the reader will find blue-colored text that is also underlined (in most examples). These are hyperlinks, that when double-clicked will open WWW websites (e.g. YouTube, etc.)

Document Intralinks*

Text that is surrounded with thin **red boxes** are intralinks that will take you to the text/reference described by that text, but remaining within the instant document.

At the various intralinked text/references you will find medium empty boxes of blue, black, or white color. These boxes are intralinks that take you back to the original red box page location or the original page (See ‘Tab B Intralinks’ as example of latter).

* Does not apply to abridged versions
