Safety has been an important consideration among Minivan buyers, and Chrysler has enjoyed a leadership position with the implementation of driver's air bag and child seats. The competition has passed us in 1993 by meeting passenger car safety standards, but we will retake the lead in 1994 with passenger side air bags.

In order to maintain our leadership position in this segment we need to provide a vehicle that has the most important safety attributes, and to that end the Minivan Safety Leadership Team is being formed. The purpose of the team is to re-establish Chrysler's advertisable safety leadership position, with particular emphasis on the NS-Body. The general format will focus effort in the areas of "Accident Avoidance", "Accident Survival" and other security issues, and the team will avail itself to all sources of expertise/assistance.

Attached is the current membership listing. Your support/awareness of this activity will enhance the ability of the team in this extremely important task. Your comments are welcome.
