**Subject:** 1993-2004 Jeep Grand Cherokee Post-Collision Fire Death Defect Investigation  
**Reference 1:** House Oversight and Government Reform [Hearing \(Chevrolet Volt\) of 25Jan2012](#)  
**Reference 2:** My Letter/Binder to you of 13 February 2012 (same subject)

Gentlemen:

I have confirmed, via telephone calls to your office, that you are in receipt of [Reference 2](#) (Attachment 1). I can only speculate that the reason I have not yet received a response is due to my non-constituent status (Attachment 2).

Accordingly, four-year-old Remington Walden was also not a constituent but his innocent status is not a viable basis for discounting my letter of 13 February 2012.

On 6 March 2012, one month after you received Reference 2, the young boy pictured at-left burned to death in a subject vehicle. The details of the fire-death of Remington are too horrific to document here. The Jeep Grand Cherokee, the model that killed Remington, was not part of a *series of hearings which focused on a single, isolated incident at a junk yard wherein not one injury and not one death occurred*. Unlike the Chevrolet Volt, the 1993-2004 Jeep Grand Cherokee presents a defective fuel tank/system design. This defect is central to my thus-far ignored hearings request to you of 13 February 2012.

I have reviewed this situation with those more astute (than I) in the area of “politics.” They advise me that, similar to the true motivations of Reference 1, Chrysler Group LLC is potentially regarded as sacrosanct in the context of various Administration bailout claims and related re-election rhetoric.

We must not tolerate the possibility that auto safety could be reduced to statistics or ignored further in the context of partisan political agendas. I will serve as plaintiff’s expert in upcoming litigations that relate to the subject. I will review your response to my letter of 13 February 2012 as **indicative of** two issues: 1) The alleged overall real-world competence of NHTSA safety regulations, and 2) The Congressional process that oversees that alleged competence. As you are fully aware, mere compliance with NHTSA safety regulations is the notorious posture of the corporate defense bar. These corporate entities have access, aggressive lobbying, and campaign funding wherewithal; a wherewithal that is [not available to non-constituents like the family of the little boy pictured above](#) (Attachment 3).

Cordially,

Paul V. Sheridan

**Subject: 1993-2004 Jeep Grand Cherokee Post-Collision Fire Death Defect Investigation**  
**Reference: House Oversight and Government Reform Hearing (Chevrolet Volt) of 25Jan2012**

Gentlemen:

Before we discuss the subject/reference, I am compelled to impose upon you. Please first review the contents of Tab 1. Please now review Page 4 of Tab 4.

-----

In the instance of Mrs. Susan Kline, she was **not** a passenger in a Chevrolet Volt during a routine NHTSA crash test. This is also true for [Cassidy Jarmon](#), when this lovely 4-year-old toddler was horribly burned to death in 2006. Similar horror has afflicted many others.

Hearings convened at taxpayer expense which are focused on allegations of politically-biased misdeeds are not unusual. But when politics interferes-with or diverts attention from truly meritorious safety issues, then notice must be placed.

[In your hearing with Mr. David Strickland](#) of the National Highway Traffic Safety Administration (NHTSA), you appeared satisfied with the notion that the post-collision fire injury/death risk of the Chevrolet Volt is "*no greater than gasoline fueled vehicles.*" This notion lacks perspective and priority.

As Mr. Strickland is fully aware, **during** the time that taxpayer dollars were expended on investigation of the Chevrolet Volt post-crash test technician issues\*, at least three additional horrific fire-related death and injuries occurred in the subject vehicles. The NHTSA investigation into these defective 1993 through 2004 Jeep Grand Cherokee vehicles has been dragging on since October 2, 2009. If you doubt my studied opinion that the subject vehicles are not crashworthy, and therefore are defective, then perhaps you should review the sworn testimony of the Chrysler executive engineer that is responsible for the design.

\* Although serious, this issue resulted in a minor fire, occurring three days later in an abandoned junk yard wherein no one was injured, let-alone burned to death.

On March 14, 1996, [in a Jeep crashworthiness severe-injury litigation](#), Chrysler Executive Vice President of Engineering and then Jeep Product Executive Mr. Francois J. Castaing testified as follows:

Plaintiff: ***What does the term crashworthiness mean in terms of design of a product?***

Castaing: ***I don't know. Tell me.***

Plaintiff: ***You don't know the phrase?!***

Castaing: ***No.***

Plaintiff: ***Well, let me make sure I'm clear on this. As the chief engineer of the company, are you at all familiar with the use of the phrase 'crashworthiness' by the engineers of the company?***

Castaing: ***Crashworthiness is so vague that you have to tell me what you intend by that.***

I am confident that no General Motors executive has testified in a similar manner regarding the Chevrolet Volt. (Formerly Mr. Castaing reported to Chrysler President Robert A. Lutz, who is currently functioning as a consultant to GM on issues such as the Chevrolet Volt.)

#### Delayed public notification of a serious safety risk?

Congressman Jordan proclaimed that the issue was “*delayed public notification of a serious safety risk.*” In this context I am requesting that you convene hearings on NHTSA PE-10031. To introduce you to the merits of this request I am (also) attaching the following documents:

- Tab 2: Center for Auto Safety (CAS) Jeep Grand Cherokee Defect Petition of October 2, 2009
- Tab 3: Paul V. Sheridan letter to CAS of June 1, 2010
- Tab 4: CAS letter to Chrysler-Fiat Chairman Sergio Marchionni of September 1, 2011
- Tab 5: Paul V. Sheridan letter to Mr. David Strickland of September 27, 2011
- Tab 6: CAS letter to Chrysler-Fiat Chairman Sergio Marchionni of November 17, 2011
- Tab 7: Paul V. Sheridan letter to Mr. David Strickland of December 5, 2011
- Tab 8: CAS letter to Chrysler-Fiat Chairman Sergio Marchionni of January 25, 2012
- Tab 9: ABC News Reports on Subject (dvd) + Digital version of this letter w/hyperlinks (cd)
- Tab 10: NHTSA-Chrysler-DOJ Defect Investigation FOIA Conspiracy

I am not discounting the additional context voiced at the reference, that political and corporate influence has the potential to corrupt the primary mission of NHTSA: the safety and well-being of all who utilize American roadways. Indeed, I am not aware of any other automotive safety expert that has been victimized by that influence to a greater extent than the undersigned (Tab 10).

I am confident that President Obama was not aware of the Castaing testimony [at the time he purchased his 2000 Jeep Grand Cherokee](#). Ostensibly speaking, your satisfaction with the notion that the post-collision fire injury/death risk of electric vehicles is “*no greater than*” the 1993 through 2004 Jeep Grand Cherokee lacks proper perspective and priority.

Respectfully,

Paul V. Sheridan  
National Champion – Civil Justice Foundation

MINIVAN LATCH ISSUE

Proposed Agreement with NHTSA

1. Crash Test Video and the Public Record:

- NHTSA has agreed that they will deny all FOIA requests to place their investigative files, including the crash test video, on the public record and that the Department of Justice will defend any lawsuits seeking to compel production under FOIA.

We would agree with NHTSA that their engineering analysis will remain open while we conduct the service campaign to provide them additional bases to argue that release of the materials would interfere with their investigation.

- The Department of Justice says there is less than a 50/50 chance of keeping the video off the record for the full duration of the investigation, i.e. the campaign, if there is a court ruling. Given the possibility that a lawsuit could be filed at any time, they anticipate that the legal process would take at least four months, regardless of the outcome.

2. Service Action Only - No Recall: NHTSA has agreed that a Chrysler service campaign would fully satisfy all of their concerns and they would give full public support to such an effort. The critical elements that differentiate the service campaign from a recall (mostly reflected in the two attached letters) are as follows:

- no admission of defect or safety problem;
- stated purpose of the campaign - to ensure peace of mind in light of media coverage;
- campaign does not count as a NHTSA action - not included in NHTSA recall numbers, no Part 573 or Part 577 letters;
- statements to owners, the public and NHTSA assert that no defect has been found; and
- NHTSA acknowledges that replacement latch is not a 100% solution.

3. **Chrysler Announcement:** Chrysler controls publication of its action with the following provisions:

- Chrysler goes first with its own statement and reads approved NHTSA statement supporting Chrysler's action;
- Chrysler characterizes campaign as done solely to ensure the peace of mind of its owners, i.e. "your concern is our concern";
- Letter from Martinez to Chrysler and NHTSA press statement praise Chrysler action as fully satisfying all of NHTSA's concerns and state that Chrysler is a safety leader;
- NHTSA officials acknowledge publicly that there has been no finding of defect and that there will be none; and
- NHTSA officials acknowledge that owners should not be concerned over the delayed implementation of the action and that they can best protect themselves by keeping seat belts buckled at all times.

4. **Additional Provisions:** The following points have been requested by NHTSA and appear to be reasonable:

- The letter to owners makes reference to the NHTSA hot line phone number;
- Latch replacement will be offered as part of any routine minivan servicing (once replacement latches are available);
- Chrysler will submit six quarterly reports on the progress of the campaign (helps to support defense of FOIA requests); and
- NHTSA can make reference to the service campaign in response to owner inquiries.

BAINBRIDGE -- Remington "Remi" Cole Walden, 4 year old son of Bryan and Lindsay Walden, passed away Tuesday, March 6, 2012.

The funeral service will be held at 2:00 p.m. on Saturday, March 10, 2012 at the Kirbo Center with Pastor Jaime Rivera, Pastor Dan Tomberlin, and Pastor Tim Dean officiating. Interment will follow at Mt. Pleasant Baptist Church Cemetery with Trey Barnard, Hayes Green, Matthew Reynolds, Eric Inlow, Keith Harrison, and Rob Green serving as active pallbearers. Honorary pallbearers will be Tim Dean, Brian Palmer, Brett Trammell, and Mike Newsome.

Remi was born April 9, 2007 in Bainbridge, GA. He was in Mrs. Rentz's Pre- K class at Jones-Wheat Elementary School and was a member of Bainbridge Church of God. Remi loved time at the beach, swimming, and playing tennis and tee ball.

In addition to his parents, survivors include his maternal grandparents, Eddie and Patricia Newsome of Bainbridge, GA; his paternal grandparents, the late Steve Eakin and Debra Eakin of Climax, GA; his uncles, Stephen Eakin of Valdosta, GA and Matthew Newsome of Athens, GA; his aunts, Nikki Langdon and her husband, Tim, of Bainbridge, GA, Kristie Eakin of Bainbridge, GA, and Emily Newsome of Bainbridge, GA; his paternal great-grandmothers, Dorothy Walden of Bainbridge, GA and Jeanette Eakin of Bainbridge, GA; his maternal great-grandmother, Maybell Green of Bainbridge, GA; and numerous cousins.

The family will receive friends from 6:00 to 8:00 p.m. on Friday, March 9, 2012 at Bainbridge Church Of God, 205 Independent Street, Bainbridge, GA 39817. Online visitors may sign the guest register at [www.iveyfuneral.com](http://www.iveyfuneral.com).
