**Dear Congresswoman Mace / Congressman Jordan / Congresswoman Luna :**

In my letter of 28 March 2022 to Anthony Fauci / Martha Pollack, I discussed the **avarice** that followed the FDA Emergency Use Authorization (11 December 2020) for the **Pfizer modRNA poison**. I quoted a key Pfizer salesman :

*“I just got done meeting with President Biden, talking about how we need to make sure we’re getting more vaccine out as quickly as possible, and getting into more people’s arms. Behind me is the Pfizer manufacturing facility that’s making the Pfizer vaccine that’s gonna get us through this COVID crisis.”*

**Picture :** modRNA needle infomercial by Senator Gary Peters (D-MI) in behalf of suitor Pfizer, at their Kalamazoo Michigan facility on 19 February 2021. (*I detail being rebuffed by Peters on Page 20 of 22.*)

In the early 2021 timeframe, while Senator Peters was working his day-job (as a sales & marketing rep for a corporation he protects under **LIABILITY IMMUNITY**), his Democratic Party comrade in Lansing Michigan was **also** serving the interests of Pfizer . . . but with far more surreptitious duties :

Michigan Attorney General Nessel was coauthor and co-signatory of **Reference 1**; a Bolshevik-styled letter of 24 March 2021 to Twitter CEO Jack Dorsey and Facebook CEO Mark Zuckerberg. As members of the Bar, those AGs were aware that censorship by-proxy by members of the United States government amounts to treason; a direct violation of their oath to uphold the US Constitution; specifically its First Amendment.

**Reference 2 strongly reinforces the opinion that the state AG behavior was criminal :**

CASE NO. 3:22-CV-01213

VERSUS

JUDGE TERRY A. DOUGHTY

JOSEPH R. BIDEN JR., ET AL.

MAG. JUDGE KAYLA D. MCCLUSKY

MEMORANDUM RULING ON REQUEST  
FOR PRELIMINARY INJUNCTION

**DEDUCTION:** If Biden is a criminal, then so are the AGs of Reference 1; their censorship demand sent to Twitter/Facebook under the ruse of protecting us from “*vaccine disinformation.*” Please note : My letter of 6 March 2023 (Reference 3) was distributed prior to the ruling by Judge Terry A. Doughty.

In my letter of 5 July 2023 to AG Andrew Bailey and AG Jeff Landry I declared (Reference 4) :

**“ I am confident that AG Ellison, and the other eleven AG signatories . . . acted in-cooperation with the Biden White House. ”**

**The AGs who authored Reference 1 welcomed Biden’s hype, as did another group. Slithering in the shadows are the vested interests of Big Academia; the most insidious of the global COVID-19 crime syndicate. Their legal concerns are borne in-part by the blatant criminality of their vaccine mandates; the criminality of Big Academia is directly connected to Subject 1 : Mrs. Jummai Nache.**

A University of Minnesota Medical Assistant, Mrs. Nache assumed the integrity of her state attorney general, Mr. Keith Ellison. She was unaware that AG Ellison was directly involved in subverting her First Amendment rights; **she was unaware of Reference 1**. She was unaware that AG Ellison had secretly blocked access to crucial COVID-19 medicinal and therapeutic information :

In lockstep with Missouri et al. versus Biden (Reference 2), the AG censorship involved not merely the demeaning of qualified/accredited health information as “misinformation” or “disinformation,” but threats against those demanding their First Amendment. **The existing censorship, later officialiated by the AGs of Reference 1, was being carried out by unqualified Twitter/Facebook trolls.** What was one result?

The “mRNA vaccine” profiteers, media gatekeepers, and the AGs of Reference 1 are directly connected to Subject 1 . . . **a horror that the First Amendment was implicitly designed to thwart . . . a horror which befell a trusting but perhaps naive human being : Mrs. Jummai Nache.**

Prior to the dates on the CDC COVID-19 Vaccination Record Card, Mrs. Nache was a “model of health.” A lifetime non-smoker, non-drinker, mother and wife; Mrs. Nache devoted her salary, earned as a **UMinn** medical assistant, to family and household. Despite her hospital workplace environment, spanning 2019, 2020 and early 2021, she never had a runny nose; never-mind full blown “*symptoms of COVID.*”

**That all ended on the evening of “2/1/21.”**

After much haggling, Mr. Philip Nache received an unredacted copy of his wife’s UMinn medical record. UMinn expects submission to their dismissal posturings. They claim that **(1)** The proximity of what **instantaneously** befell Mrs. Nache on “2/1/21,” juxta-positioned to **(2)** Their employment mandate coercion of the Pfizer modRNA poison . . . that the aftermath should be dismissed as: “**COVID-19.**”

Emphasizing proximity to “**2/1/21,**” the UMinn report refutes their own dismissal posturings :

Before we review Page 6, it is crucial to contemplate the portent of a hypothetical exchange :

*Question:* Prior to the first Pfizer modRNA injection of January 13 2021, how many times was Mrs. Nache tested for SARS-CoV-2?

*Answer :* She was not tested prior to vaccination.

*Question :* When was she first tested for SARS-CoV-2?

*Answer :* February 16, 2021.

*Question :* So . . . it was not until **after** Mrs. Nache was **twice** injected with the Pfizer modRNA needles, and thereafter collapsed, that she was **then tested** for SARS-CoV-2, **and then declared as “positive” ?!**

*Answer :* Correct.

**UMinn frantically solicited a 31 March 2021 letter from Ms. Rochelle Walensky (CDC) ; it claims that the following screenshot/photo are explained by COVID-19, a respiratory disease ?!** (See Page 8 below)

While hiding behind **LIABILITY IMMUNITY** (provided by Anthony Fauci, and the 2019 servility of President Donald Trump); it was in that context only that UMinn experts had a brief encounter with basic integrity :

***“Again discussing”?!***

***“Potential role of the vaccine”?!***

***“Though it can’t be excluded”?!***

***“Contributing to some extent”?!***

The following portion of the UMinn medical report was filed **prior** to the thromboembolism-based amputation horrors inflicted upon Mrs. Jummai Nache (Note their scurrying to **“the letter from the CDC”**) :

**Assessment:**

Jummai P Nache is a 50 year old female patient who is following up after a prolonged admission and continued rehab after MIS-A. Her clinical course has left her with life-changing physical disfigurement which is almost certainly going to need amputation.

Most of our visit was spent again discussing the potential role of the vaccine in this process. Dr. Fontana shared the letter from the CDC stating that this was MIS-A without clear involvement from the vaccine, though it can't (and likely never will be) excluded as contributing to some extent. Since the last visit, and separate from the laboratory evidence discussed with the CDC, I did have the PF4 antibody testing done on a blood sample saved from around the same day as her arterial thrombotic events. This testing was negative. Thrombotic Thrombocytopenic Syndrome (TTS, previously termed VITT as mentioned in my previous note) is the syndrome linked to the infrequent CSVT and other thrombotic events linked to Johnson and Johnson vaccines. While we do not have pathognomonic tests for this (or most other disorders), the PF-4 antibody testing is quite sensitive, so the absence of it is reassuring against that diagnosis. Greinacher et al. **Thrombotic Thrombocytopenia after ChAdOx1 nCov-19 Vaccination**, *NEJM* April 2021 <https://www.nejm.org/doi/full/10.1056/NEJMoa2104840>). The onset here was also a bit early, based on discussions I had with an expert on the topic at another institution in reviewing this case.

We spent 45 minutes reviewing what constitutes MIS-A versus other similar inflammatory or infectious states, how the vaccine could have hypothetically amplified an MIS-A that might have occurred anyway, but since we do not know why some are susceptible to MIS and not others, we cannot even say that for sure. My feeling is that they are still in the coping phases of this, and more will come with the amputations needed, so I am just trying to support Jummai and Phillip through this with as much evidence-based background to Jummai's events as I can. I will keep working with them to help provide ongoing feedback for their MIS- and clot-related questions.

The above (from Page 183 of 1164) is part of the 21 May 2021 entry by UMinn Dr. Alexander A. Boucher :

***“Most of our visit was spent again discussing the potential role of the vaccine in this process. Dr. Fontana shared the letter from the CDC stating that this was MIS-A without clear involvement from the vaccine, though it can't (and likely never will be) excluded as contributing to some extent.”***

The National Cancer Institute, part of the National Institutes of Health, **still** defines COVID-19 as follows :

**NIH NATIONAL CANCER INSTITUTE**

A highly contagious respiratory disease caused by the SARS-CoV-2 virus. SARS-CoV-2 is thought to spread from person to person through droplets released when an infected person coughs, sneezes, or talks. It may also be spread by touching a surface with the virus on it and then touching one's mouth, nose, or eyes, but this is less common. The most common signs and symptoms of COVID-19 are fever, cough, and trouble breathing. Fatigue, muscle pain, chills, headache, sore throat, runny nose, nausea or vomiting, diarrhea, and a loss of taste or smell may also occur. The signs and symptoms may be mild or severe and usually appear 2 to 14 days after exposure to the SARS-CoV-2 virus. Some people may not have any symptoms but are still able to spread the virus. Most people with COVID-19 recover without needing special treatment.

SARS-CoV-2? SARS, Severe Acute Respiratory Syndrome, induces a respiratory illness. **But in early 2021 the UMinn doctors are *already* reporting : “clot related questions” ?!**

**Memo to  
Congresswoman Luna :**

Please share with St. Petersburg, Florida resident Ms. Claire Bridges. She was “vaccinated” with modRNA, but like Mrs. Nache she later tested positive anyway, and then like Mrs. Nache lost both legs due to what doctors dismissed as “*complications from COVID-19.*”

**modRNA Needle Content *Fraud* Now Confirmed**

In my resignation demand letter of 21 April 2023, distributed to twenty Ivy League administrators, I stated :

We conclude with Reference 3: Mrs. Jummai Nache and her family. Accurate perspective partially involves the following torrid fact regarding the twenty Ivy League administrators; recipients of this letter: **None of you, to this day, can declare with absolute certainty the precise contents of the mRNA needle(s) that you coerced into the veins and arteries of your students, staff and faculty:**

If there is a single piece-of-evidence that provides a 'preponderance of truth,' which further confirms your criminal status, it is *that* ongoing putrid reality.

A week after my 21 April 2023 letter to the Ivy League, media reports emerged based on a study entitled :

Mrs. Nache did not receive the Pfizer-BioNtech modRNA “batch” depicted by the yellow line :

Similar to the Ivy League administrators, the University of Minnesota coercionists still cannot specify the **precise** contents of the modRNA needle that their *CDC Vaccination Record Card* glossed-over as :

“Lot EK9231” and “Lot EL9262.”

It is no surprise that the amputated legs and fingers and hand of former University of Minnesota Medical Assistant Mrs. Jummai Nache have been :

**“discarded.”**

Page 1 of 4

The tiny enclave called India, with a human population of over 1,300,000,000, rejected the Pfizer modRNA needles; or perhaps more precisely on the media surface, Pfizer rejected India.

It must have been quite a meeting at the Pfizer Board of Directors in New York City; a meeting rumored to have ended with a unanimous decision to **drop** India from further marketing . . . a decision that deleted billions in previously projected sales of “safe and effective” needles; sales that implicitly promised ultra-high margin cash flows that Pfizer demanded to be shielded by [LIABILITY IMMUNITY](#).

The Pfizer **drop** decision turned on the mere hint that Indian scientists (first to decipher the SARS-CoV-2 sequence ! ), sought independent trials of the “safe & effective” needle. Then the government of India confirmed zero intention of providing LIABILTY IMMUNITY !

But there must have been another **huge** downside facing Pfizer for them to “drop” India; a market that is projected to overtake China in population by next year (2024). **A huge downside indeed !**

The Pfizer “drop” decision involved far more than that early 2021 headline above . . . it involved possible exposure of their most fundamental COVID-19 crimes against humanity, it involved disclosure of needle content that was unrelated to “trade secrets.” India had inquired about a manufacturing license. To effect large scale production, India **asked** for precise “vaccine” information. In contrast, prior to approval under their EUA, although dutifully parroting the “safe & effective” mantra, the dolts at the FDA **never even asked!**

The FDA EUA-only needle was specified and vigorously promoted as an “mRNA vaccine.” But is that term truthful? In Pfizer sales materials and FDA submissions the acronym “mRNA” is used *ad nauseam*. But do those Pfizer submissions purposely mislead? Is the FDA complicit? **Is more precision needed?**

Focused on my alma mater, Cornell University, my 21 April 2023 “**precise contents**” admonishment :

We conclude with Reference 3: Mrs. Jummai Nache and her family. Accurate perspective partially involves the following torrid fact regarding the twenty Ivy League administrators; recipients of this letter: **None of you, to this day, can declare with absolute certainty the precise contents of the mRNA needle(s) that you coerced into the veins and arteries of your students, staff and faculty:**

**modRNA Needle : Further Confirmation of Criminal Fraud**

Page 2 of 4

Regarding focus on Big Academia in-general, and how their early 2021 promotions of Big Pharma mantras were not ignorant let-alone innocent; we must expose a crucial criminal fraud :

### **The Pfizer needles were NOT an mRNA vaccine.**

That prefix, mRNA, has long stood for ‘messenger ribonucleic acid,’ or messenger RNA. mRNA is a naturally occurring protein molecule. That prefix is deployed to portray the Pfizer needle as harmless; merely a wonderful extension of Mother Nature. **In other words, they cannot even tell us the most basic truths about the precise content of needles that they mandated into millions of human beings worldwide.**

I have not used the term mRNA in this letter, but instead **modRNA**. With modRNA as the precise term in view, we introduce a **Cornell professor of immunology** from our esteemed College of Veterinary Medicine; **Mr. Avery August** . . . who was one of the earliest and loudest of Pfizer cheerleaders :

In response to the above still pervasive question, Mr. August bold-facedly declared in late March 2021 :

*“The short answer is ‘no.’ There are three vaccines that are currently approved. Two are based on mRNA. And basically what mRNA technology does, it tells your cells to make the protein that comes from the virus, so that the next time your body sees the virus, the true virus, your immune system can respond and protect you. The third vaccine actually just uses a harmless cold virus to tell your cells to make the same protein. So it’s all harmless, and it will not affect your DNA at all.”*

The above video was posted on 5 April 2021 (?!); not just at the Cornell website, but at YouTube, Vimeo, BitChute, Instagram, Twitter, Facebook, and even overseas sites where language captions were provided.

Almost NOTHING in the cheerleading is accurate. In terms of the real-world data available in early 2021, **and similar to Reference 1, the essence of the August response is, at-best, baseless.**

**modRNA Needle : Further Confirmation of Criminal Fraud**

Page 3 of 4

That 5 April 2021 cheerleading is based on what? We first focus on the summary by Mr. August :

***“So it’s all harmless, and it will not affect your DNA at all.”***

*Harmless?* Was Mr. August referring to data immediately experienced on the “third vaccine” ? The Johnson & Johnson “viral vector vaccine” ? Emergency headline news a mere eight days later :

HEALTH

## U.S. urges pause on use of Johnson & Johnson Covid-19 vaccine after rare blood clotting cases

By  [Helen Branswell](#)  April 13, 2021

***Rare? Blood clotting?? Even from the J&J approach? Which did not involve an “mRNA vaccine”?***

In their adolescence, the University of Minnesota attempts to divert attention away from the Pfizer modRNA used on Mrs. Jummai Nache. Shortly after the video cheerleading by Mr. August, a medical report entry of 21 May 2021 by Dr. Alexander A. Boucher (excerpt shown on Page 7 above) :

***“Thrombotic Thrombocytopenic Syndrome (TTS, previously termed VITT in my previous note) is the syndrome linked to the infrequent CSVT and other thrombotic events linked to the Johnson and Johnson vaccine.”***

Perhaps Mr. August and Dr. Boucher have an explanation for the headline of **a few weeks ago** :

**MEMO** : None of the “vaccine” cheerleading videos/materials, at Cornell or any other Ivy League institution, were targeted for censorship on the basis of “*misinformation*” or “*disinformation*” by the treasonous criminals of Reference 1; listed on Page 19 below.

The concerned question, “***Will the vaccine alter my DNA?***” In his 5 April 2021 video Mr. August repeatedly declared the terms “mRNA,” and “mRNA technology.”

1. Is that declaration truthful? Are the needles mandated by Ivy League administrators and officials like Joe Biden “*based on . . . mRNA technology*”?

2. Most importantly, was it well-known by Mr. August and his ilk that a **precise** answer would provoke an affirmative response to the concerned question? A question he (and Pfizer) repeatedly rebuffed :

**CONCLUSION**      *Part A*

The Pfizer needles are not an mRNA vaccine . . . these injections are based on modRNA technology, and are far more dangerous than the ongoing data has already demonstrated. The horrors inflicted upon Mrs. Jummai Nache ([and Congresswoman Nancy Mace](#)) are the result of criminal fraud . . . a status that more than adequately establishes WILLFUL MISCONDUCT, and therefore completely obviates the provision of LIABILITY IMMUNITY (surreptitiously provided under the PREP Act, et al.).

**CONCLUSION**      *Part B*

From Page 3 above, my summary reaction to instant Reference 1 :

**“ I am confident that AG Ellison, and the other eleven AG signatories . . . acted in-cooperation with the Biden White House. ”**

It is increasingly clear from your efforts that the posturings from Twitter CEO Jack Dorsey and Facebook CEO Mark Zuckerberg; that they were “*under pressure,*” and “*were merely following orders*” is an insult to our intelligence. Dorsey and Zuckerberg sought from the Biden Administration a **veneer of legitimacy**; a way to enact **their** censorship role/bias under the guise of government coercion. These efforts, adjudicated in Reference 2, were reciprocal; conspiratorial and criminal. We return to Reference 1 . . .

An exactly similar reciprocal veneer was deployed by the AGs shown on Page 19 below. This is especially true of Mr. Keith Ellison, and his fraudulent claims of “*public service*” made upon Mrs. Jummai Nache. With her tragedy as context, Reference 1 confirms that Ellison’s primary thesis is racial exploitation :

**“*Anti-vaxxers*” are using social media platforms to target people of color and Black Americans specifically, members of communities who have suffered the worst health impacts of the virus and whose vaccination rates are lagging.”**

Despite Ellison’s receipt of Reference 3, which included instant Tab 5, he has not responded. The modRNA poison injected into his constituent (Mrs. Jummai Nache) harbors no special favors toward any human being. The batches graphed on Page 9 above have harmed and killed thousands worldwide, without any prejudice whatsoever . . . without any end in sight. Indeed, the *only* way that Ellison, Biden, Pfizer and Big Academia could successfully promote the modRNA needle . . . was with fear, mandates, disinformation and censorship!

**Contrary to the thesis of Reference 1 . . . 99.9% of the “*people of color and Black Americans*” that refused the modRNA poisons; those Americans that Ellison and his AG comrades exploited as “*targeted,*” have in-fact suffered the least ! Should you doubt that thesis, please see Tab 5.**

## NY Forward Advisory Board

Pfizer is a New York company – something I am greatly proud of. The company’s decision to opt out of Operation Warp Speed, which the Biden administration plans to overhaul, puts it in a unique situation that could help us save lives right here in New York. I am happy to discuss this matter further with you.

Sincerely,

A handwritten signature in black ink, appearing to read "Andrew M. Cuomo".

**Reference 5 Secret Meeting : Republican Governors Association / Pfizer CEO Albert Bourla**

**Governor Kim Reynolds (R-IA)**, proposes that she is qualified to be Vice President; that she presents an ethical stature. After many many many attempts Ms. Reynolds confirms no such thing; she refuses to respond to my basic inquiries regarding a secret meeting she orchestrated between Pfizer CEO Albert Bourla, and the Republican Governors Association (RGA) . . . *which she chairs.*

Reynolds is hiding behind the constituency game; feels no moral obligation toward a non-resident. We put her adolescent shenanigans in perspective . . . Shortly after deployment of Reference 1 by Minnesota Attorney General Keith Ellison, **Mrs. Jummai Nache was scheduled for amputation of both legs, her left hand, and multiple fingers of her right hand.**

At this same time (2021), **Mr. Albert Bourla threatened any who resisted his modRNA as “criminals.”** Stung by Project Veritas; filmed being escorted by Pfizer Security into a secret meeting **with Reynolds’ Republican Governors Association?** RGA racketeers who also relish news which commenced in 2021? **An ongoing political fund-raising gala, guaranteed by LIABILITY IMMUNITY :**

**Rebuffed by Michigan Senators / Representative***(Continued from bottom of Page 1)*

Emphasizing my declaration to AG Andrew Bailey and AG Jeff Landry in Reference 3 :

**“ I am confident that AG Ellison, and the other eleven AG signatories . . . acted in-cooperation with the Biden White House. ”**

At his Pfizer infomercial (Page 1 above), Senator Peters also claimed :

***“It was great to welcome President Biden back to Michigan . . . As Chairman of the Homeland Security Committee, I will continue working with the Biden Administration to ensure that vaccines are free . . . ”***

**Free?!?**

In Peters' mind, the transfer of US Treasury funds to BigPharma racketeers is free ?!

After the Peters' infomercial of 19 February 2021, the legacy and social media was deployed to conceal the lucrative scheme underway. With their comprised “president” installed in the White House, the COVID-19 racketeers were already planning their next “pandemic.” But two issues had to be resolved with haste : (1) Elimination of “vaccine hesitancy,” and (2) Deployment of a massive disinformation campaign to conceal their favorite ruse: LIABILITY IMMUNITY.

#1 involved defamatory media attacks, social ostracism, and DOJ/state AG prosecutions of the “anti-vaxxer.” Their president launched vicious attacks on the “anti-vaxxer;” people who by-definition do not accommodate the transfer of “free” US Treasury funds to Pfizer. Biden's opening salvo was a passionate lie :

***“ They're killing people! ”***

Resolving the “anti-vaxxer” issue further, Biden dictated “testing mandates,” which in-practice are nothing more than a modRNA sales ploy. On 9 September 2021, Biden issued his perverted fist-pumping whisper :

***“ Get vaccinated! ”***

To resolve LIABILITY IMMUNITY, Biden instead spectacularly confirmed its criminality. At the **March 2022 State of the Union address** he declared another bold-faced lie :

***“ Repeal the liability shield that makes gun manufacturers the only industry in America that can't be sued. The only one! ”***

**Rebuffed** Fully aware of that Biden lie, and much more; seated to the Left in the front row at the 2022 State of the Union address? Michigan Senators Gary Peters and Debbie Stabenow, and Congresswoman Debbie Dingell . . . **Of the many COVID-19 letters and voicemails sent to these “public servants,” over several years . . . how many responses do you think I have received? As one of their constituents?**
