Subject : Alleged US Secret Service “Open File” on Mr. Paul V. Sheridan *(undersigned)*

Reference 1 : Undated / Anonymous Letter Allegedly from Trump International *(29 June 2023)*

Reference 2 : My letter of 12 May 2023 to Former President Donald J. Trump *(enclosed)*

Reference 3 : My Letter / Gift to First Lady Melania Trump of 3 March 2017 *(Letter enclosed)*

Dear Ms. Cheatle :

Given reports on the failure of the current US Secret Service at their primary role, securing the safety of our White House and its residents/visitors versus emplacement and/or use of contraband, behavior that *has* caused imprisonment; it is therefore not unreasonable to speculate that **behavior of a far more sinister purpose also went unresolved** by your predecessors: Emplacement of biological/chemical agents deployed to ensure that the former president and First Lady **“tested positive for coronavirus.”** The latter in-fact occurred right before the first 2020 “presidential” debate with the following individuals :

The verbiage/photograph above is not exaggerated. The individual in the foreground, winner of the “Genesis Prize Award” ? As you apparently already have on file, presuming that Reference 1 is genuine, my letter of 5 October 2022 was received by :

Mr. Anthony Fauci
 Ms. Martha Pollack
Mr. Albert Bourla
 Mr. Donald Trump

Ninety-two pages in length, Pages 28 through 52 are entitled **THE BOURLA EFFECT**. Page 28 contains the subtitle : **THE CURIOUS CASE OF THE DELAYED VACCINE**.

A scan of Reference 1 is attached. It was received on 29 June 2023 via USPS, post-marked in Westchester, New York; a one-hour drive from Trump Tower. Its opening paragraphs state (screenshot):

Dear Mr Sheridan

I was passed your letter of 12 May 2023 addressed to rPOTUS. I need to alert you that this and all your previous correspondence with rPOTUS was passed to Secret Service as they have an open file on you. I don't think they regard you as a serious threat to rPOTUS but I am not sure of how much electronic monitoring that goes on. I am only going to contact you through this letter and I will not say who I am. In todays world the DEEP STATE cant be ignored. All of us who work for rPOTUS are under threat. You should be careful too. PATRIOTS CAN END UP IN PRISON. We all saw that after J6.

I write to give you a heads up about the Secret Service file on you. Also to give you a steer to someone you should look into.

The **“letter of 12 May 2023 addressed to rPOTUS”** is instant Reference 2; I have enclosed a duplicate for your Washington Field Office file. Reference 1 presupposes your assessment that I do not pose **“a serious threat to rPOTUS.”** If the organization you (now) lead was sincerely concerned in that regard, they would have had, and continue to have, an **“open file”** on the following individuals . . . A very small sampling; restricted to Trump Administration staff and/or frequent visitors to the White House :

“There will be a challenge (for) the coming Administration in the arena of infectious diseases, both chronic infectious diseases in the sense of already ongoing disease, and we have certainly a large burden of that, but also there will be a surprise outbreak.” (January 10, 2017)

Questions

Is Reference 1 genuine? Given how you “resolved” the White House contraband farce, it is unlikely you possess the expertise to answer that question. Perhaps, once again, you need to rely on outside experts; ala your curious 2 July 2023 decision to solicit the Hazmat Team of the Washington DC Fire Department.

For the record: Although ostensibly prompted by Reference 2, Reference 1 did not originate in the direct sense from the undersigned in *any* manner.

If Reference 1 is telling, the Secret Service has had an “open file” on me since not-later-than March 2017. The exchange between First Lady Melania Trump and I occurred shortly after the open threat against “the coming Administration,” posed by the criminal quoted on Page 2 above.

Reference 3 is genuine. However, given its specific content, and given your apparent lack of internal investigatory expertise, perhaps you should forward Reference 3 to this individual :

Regarding Reference 3 portent, Mr. Merrick Garland has a demonstrated/documented hostility toward anything Christian; more specifically, anything connectable to the man and name of Jesus.

Regarding your contraband farce, Mr. Garland is intimate with a frequent White House visitor who has a long notorious video-taped history of contraband use. With these actual “serious threats” in full view, I ask :

Question: Has the United States Secret Service, under your directorship, deployed precious taxpayer assets for the purpose of maintaining an “open file” focused on determination of whether the undersigned poses a “serious threat to rPOTUS”? **Yes or no?**

Discussion **Page 1 of 2**

“COVID-19 pandemic” beneficiaries and vested interests are financially threatened by my efforts to expose LIABILITY IMMUNITY. Emplaced by Anthony “surprise outbreak” Fauci, LIABILITY IMMUNITY was promoted as a legal mechanism by which drug innovators (i.e. pharmaceutical charlatans) would be motivated to take risks that would be untenable in view of consumer protection torts. **An absurd fraud.** Fauci and the US Congress had orchestrated legal protections for drug company suitors that other product manufacturers would not contemplate *on moral grounds!* My interview with Stew Peters was preambled by the operative that evoked, for the first time in US history, “vaccine” LIABILITY IMMUNITY :

That operative was President Donald Trump’s Operation Warp Speed. (Subject 2 of instant Reference 2)

The beneficiary on Page 1 above (not injected at the time of that photo), **laughs all the way to the bank; the office of Ms. Janet Yellen, who promotes the taxpayer funded mRNA needles of her friend, Pfizer CEO Mr. Albert Bourla . . . on the US Treasury home page (!?) :**

Discussion **Page 2 of 2**

Even Ivy League administrators, a vested interest in the financial whirlwind of the “COVID-19 pandemic,” who I put on-notice regarding their criminality, have sufficient intellect to question Yellen’s brazen behavior :

- Serving as sales representative for mRNA needle manufacturers such as Pfizer?
- Using the taxpayer funded US Treasury website as a Big Pharma billboard?
- Transferring **billions** of tax dollars to Pfizer Inc for an experimental mRNA needle, that the FDA took only one day to approve; a needle that is so **inherently** defective/toxic that the *only* pathway to deployment . . . including Biden / Ivy League mandates . . . **is while slithering behind the risk-obviating cash-flow-protecting racketeering of LIABILITY IMMUNITY?!**

As I specified for the Ivy League administrators (*screenshot from Reference 2, Attachment 1 of Tab1*) :

If just one Ivy League University had unmasked the criminal character, purpose, and culprits of the so-called COVID-19 pandemic, that entire scheme would have collapsed; and millions of lives and livelihoods would have been spared . . . **This is especially true if it had been my alma mater, Cornell University.**

Perspective is served by elevating this discussion to an actual human being. **Tab 4 of Reference 2 is dedicated to Mrs. Jummai Nache and her family.** The horror that befell her is the result of LIABILITY IMMUNITY and its protectorate, Operation Warp Speed. Please take the time to review that photo progression history . . . take a look Ms. Cheadle . . . especially the last page.

Personal Comment

I was not, and remain in no way threatened by Reference 1. Please feel free to insert these materials into your "open file." Such already exists at the US Department of Justice (DOJ). This resulted from my testimony in the product liability death case of Flax v DaimlerChrysler. Long before the current trendiness of realizing that the DOJ has been "weaponized," I am the witness that testified in open court in Nashville, Tennessee on how the corporatization of the DOJ led to the manslaughter of one-year-old Joshua Flax. I am perhaps the only person to testify against the DOJ . . . and live to tell about it.

CONCLUSION : President Donald J. Trump, the Most-Lied-To and Most-Lied-About President in U.S. History

The only "threat" I might pose to Mr. Donald J. Trump is of an ethical and patriotic nature. I am compelled to demand that he recognize, for the sake of himself, the First Family and the nation; that he was the **most-lied-to** and the **most-lied-about** president in US history.

Of those lies, none are more insidious and far-reaching as those borne in the criminality of the "COVID-19 pandemic." The hard data regarding the devastation caused by the mRNA needles (even that surviving censorship) is not receding; indeed it is amassing at an accelerating pace, and at the global level. Unless Mr. Trump forthrightly and publically corrects his "wonderful vaccine" position, the history books will forever assign the horrific adverse events data and its cause (Operation Warp Speed) to the Trump Family name.

I take no pleasure demanding the correction proposed in Reference 2. But I remain steadfast: At this point, the torrid legacy of Operation Warp Speed includes, and is inextricably **connectable** to the ongoing agony endured by Mrs. Jummai Nache and her family.

If Mr. Trump embraces this reality, and provides humanity with the whole truth, his legacy will be fortified, and he will be credited historically for his offering of further confirmation of the **willful misconduct** that permeates the entirety of the "COVID-19 pandemic."

A key outcome of Mr. Trump's further confirmation will be the obviating of LIABILITY IMMUNITY which is so gleefully deployed and enjoyed by his political enemies. The justice so desperately needed among millions nationally and worldwide, at present and in the future, is at stake.

I will be in contact with your office to request, in behalf of the US taxpayer, affirmation of the Subject question (at-bottom Page 4). Please feel free to contact me at any time, with *any* questions you may have.

Respectfully yours,

Paul V. Sheridan
