“The so-called ‘COVID-19 vaccine’ is not in response to the SARS-CoV-2 virus; but the exact opposite!”

12 October 2022 Press Conference by European Union Parliament Member from Romania, Mr. Cristian-Vasile Terheş :

“ Everyone is avoiding these, I would say, logical questions. There is another issue. A year ago, I requested them (Pfizer) to submit some details and data to me, because I wanted to have an informed decision, I will say, when I voted in favor or against the ‘Green Certificate.’ And one of the questions I asked was, to send me all trials, the tests, the clinical trials that all these medical companies had done, either in animals or in humans before they requested the marketing authorization (for the COVID vaccine).

So, in the case of Pfizer, here is something interesting. When they submitted the information and the clinical trials to Pfizer; here is all the tests, that they submitted along with their request.

They submitted a clinical trial that started on January 14, 2020!

I asked yesterday, the representative of Pfizer, and she declined to answer, how is it possible, that we, the world, found out in December 2019 that there is a COVID or coronavirus, as it is called, in China, December of 2019? On January the 11th the Chinese government released the DNA data, or a segment of it, to the public and three days later, Pfizer already started the tests for the vaccine. **How is that possible?!** She did not answer.”

Memo: I wrote to NIAID Director Mr. Anthony Fauci all the way back on 21 July 2020. My Footnote 1 from Page 8 of that letter questioned the Fauci assertion that “we” began working on a vaccine in January 2020 :

1 January?! Given how little was known about SARS-CoV-2, due to censorship (by the Wuhan Laboratory and those associated with it), it is astounding that you were already “develop(ing) a vaccine.” In this context please review the screenshot on Page 1 above, and Question 1 above.

Subject : Voiding of mRNA Manufacturer 'Liability Immunity' Provision of PREP:
Due to Willful Misconduct, False Claims, and RICO Level Criminality;
by Those Manufacturers and Their Many Vested-interests

Reference 1 : Granting of Grand Jury Petition Filed by People of Florida

Reference 3 : My Letter of 13 December 2022 to Florida Governor Ron DeSantis and Key Staff

Dear Governor DeSantis :

I am forwarding to you, for information and potential utility to **Reference 1**, a complete hard-copy duplicate of the 18 April 2022 ten-tab letter previously shared with Ms. Susan Neely, CEO of the American Council of Life Insurers. Note that the SPOD indicates Ms. Neely receipt of 20 April 2022.

I am also forwarding **Reference 2**; a sample of many previously/currently being sent to fellow governors. Note that I highlight/praise ¶ B-1-a of the Court's order. The most disheartening, and primary in terms of instant Subject justification, is the section in my letter to the governors which begins on Page 3 of 5 :

Blood Transfusion / mRNA Induced Death of Baby Alex

That section is preambled on Page 2 (screenshot):

Pre-planned Underbelly of COVID-19 Criminal Enterprise is *Liability Immunity*

I have asked *many* times :

Does anyone actually believe that Mr. Albert Bourla would have sold his mRNA needles into a market wherein he and Pfizer were *not* protected by liability immunity?!

Please note my summary remarks to that Baby Alex section; at-bottom, Page 4 of 5. You might wish to review my medical assertion regarding "blood clots" with Florida Surgeon General, Dr. Joseph Ladapo.

Dear Ms. Neely :

I am forwarding **References 1, 2, and 3**; the latter the enclosed five-tab binder. In absolute terms, Florida has the greatest population '65 and older.' This reality justifies alerting you to the COVID-19 developments and revelations that have occurred since my letter to you of 18 April 2022; especially Reference 1.

General Discussion – “How is that possible?!”

Since *prior to* my very first COVID letter to “fellow” Cornell University graduate, Mr. Anthony Fauci; of 21 July 2020, I have emphatically declared (screenshot):

“The so-called ‘COVID-19 vaccine’ is not in response to the SARS-CoV-2 virus; but the exact opposite!”

Tab 4 of **Reference 3** includes an Addendum, three pages attached. Please review the outrage expressed by European Parliament member of Romania, Mr. Cristian-Vasile Terheş. **Regarding ‘willful misconduct,’** please consider the mounting evidence that supports my three-year-old ‘exact opposite’ declaration.

CONCLUSION

With an emphasis on connecting the instant Subject and the portent of my 18 April 2022 letter to Ms. Neely, to the Reference 1 (Grand Jury Petition), I suggest that *preliminary* prosecutor’s witness testimony include:

Mr. Edward Dowd

Dr. David Martin

Ms. Katherine Watt

Dr. Michael Yeadon

Supreme Court of Florida

THURSDAY, DECEMBER 22, 2022

CASE NO.: SC22-1710

STATEWIDE GRAND JURY #22

ORDER DIRECTING IMPANELMENT OF A STATEWIDE GRAND JURY

THE COURT has received a Petition from the Honorable Ron DeSantis, Governor of Florida, for an order to impanel a statewide grand jury. “[T]his Court’s responsibility in impaneling a statewide grand jury is ‘ministerial in nature’” and is limited to reviewing whether the petition meets the statutory requirements. *State ex rel. Reichle v. Edwards*, 409 So. 2d 1043, 1044 (Fla. 1982) (quoting *In re Advisory Opinion to the Governor*, 290 So. 2d 473, 474 (Fla. 1974)). Being fully advised of the relevant matters, the Court hereby finds as follows:

A. The Petitioner, the Honorable Ron DeSantis, Governor of Florida, has alleged that good and sufficient reason exists and that it is in the public interest to impanel a statewide grand jury, with jurisdiction throughout the State of Florida, to investigate crime, return indictments, make presentments, and otherwise perform all functions of a grand jury with regard to the offenses listed in section 905.34, Florida Statutes (2022).

B. The matters to be inquired into are any offense listed in section 905.34 that:

(1) relates to the following:

(a) Individuals, persons, and entities, including, but not limited to, pharmaceutical manufacturers (and their executive officers) and other medical associations or organizations involved in the design, development, clinical testing or investigation, manufacture, marketing, representation, advertising, promotion, labeling, distribution, formulation, packing, sale, purchase, donation, dispensing, prescribing, administration, or use of vaccines purported to prevent COVID-19 infection, symptoms, and transmission;

(b) other criminal activity or wrongdoing that the statewide grand jury uncovers during the course of the investigation if it determines that pursuing the criminal activity or wrongdoing is in the best interests of the investigation;

and

(2) is occurring, or has occurred, in two or more judicial circuits as part of a related transaction or is connected with an organized criminal conspiracy affecting two or more judicial circuits, as required by section 905.34, Florida Statutes.

WHEREFORE, THE COURT, pursuant to the provisions of sections 905.31 through 905.40, Florida Statutes, Statewide Grand Jury Act, hereby orders as follows:

1. A statewide grand jury shall be promptly impaneled for a term of twelve calendar months, to run from the date of impanelment, with jurisdiction throughout the State of Florida, to investigate crime, return indictments, make presentments, and otherwise perform all functions of a grand jury with regard to the offenses stated herein.

2. The statewide grand jury shall be drawn from the certified jury lists submitted by the chief judges of the Fifth, Sixth, Tenth, Twelfth, and Thirteenth Judicial Circuits.

3. The Honorable Ronald Ficarrotta, Chief Judge in and for the Thirteenth Judicial Circuit, is designated as presiding judge over the statewide grand jury. In his capacity as the presiding judge, the Honorable Ronald Ficarrotta shall maintain judicial supervision of the statewide grand jury, and all indictments, presentments, and formal returns of any kind made by such grand jury shall be returned to the presiding judge. The presiding judge may designate an alternate presiding judge in the event of calendar conflicts or otherwise and to assist in the administrative process of the statewide grand jury.

4. John A. Tomasino, Clerk of the Supreme Court of Florida, is hereby designated clerk of this statewide grand jury and is empowered to deputize any clerk of a circuit court or any deputy clerk of a circuit court to issue necessary process and to carry out the administrative functions of the statewide grand jury.

**Reference 2: Granting of Grand Jury Petition Filed by People of Florida
(Governor Ron DeSantis) by Florida Supreme Court – 22 December 2022**

Dear Governor Lee (Congratulations on your Re-election!) :

I have been mostly alone, and for far too long, on this Subject. As a result, I have endured much abuse from vested interests; at-left is a screenshot from my December 2021 interview.

Attached for your information is Reference 1. Regarding Reference 2, I am especially hopeful with the Court’s “*not limited to*” wording of ¶ B-1-a; it supports the ‘*Stream of Commerce*’ scenario/viewpoint required for a more complete adjudication of the Subject :

(a) Individuals, persons, and entities, including, but not limited to, pharmaceutical manufacturers (and their executive officers) and other medical associations or organizations involved in the design, development, clinical testing or investigation, manufacture, marketing, representation, advertising, promotion, labeling, distribution, formulation, packing, sale, purchase, donation, dispensing, prescribing, administration, or use of vaccines purported to prevent COVID-19 infection, symptoms, and transmission;

For example, in Reference 1, under Tab 4 you will find material that I reviewed with the Ivy League:

Subject : Enactment of the COVID-19 “Pandemic” Ivy League Criminal Participations in Denial of Religious Exemptions; Lockdowns, Social Distancing, Face Mask and mRNA Mandates; Deliberate Spreading of Blatant Disinformation that mRNA Needle Obviated Transmissibility

Tab 4 emphasizes the full scope of COVID vested interests, a full 'Stream of Commerce' scenario that we are indeed confronting. An important operative distinction is needed. With the laudable exception of Oral Roberts University, the majority of universities (slithering under the radar) did **not re-act**, but continue to **enact** the "COVID-19 pandemic." Their lack of virus-origins inquiry/investigation, and their ongoing/escalated needle mandates, and much more are confirmatory.* Nowhere is my **enactment** assertion more provable than at my alma mater; unfortunately the alma mater of a common criminal named Mr. Anthony Fauci: Cornell University.

Pre-planned Underbelly of COVID-19 Criminal Enterprise is *Liability Immunity*

I have asked *many* times :

Does anyone actually believe that Mr. Albert Bourla would have sold his mRNA needles into a market wherein he and Pfizer were *not* protected by liability immunity?!

Shown at-left, discussed under Tab 4 pages 10-19 of 33, true to his person, **Mr. Bourla refused to testify** before the 'European Parliament Special Committee on the COVID-19 Pandemic' of 10 October 2022.

Shown at-right, venous blood congeal structure recently removed from a Pfizer mRNA victim; now a common expectation that was *allegedly* unknown at the time that Mrs. Jummai Nache was threatened with dismissal by her former employer, the University of Minnesota. We now review the horrific death of Baby Alex. **

* This is especially true of Ivy League universities *that house vested-interest medical schools*: Yale, Harvard, Columbia, Brown, Dartmouth, Penn, and of course Fauci's alma mater Cornell.

** For a long established historical perspective on **mRNA infant mortality**, including conduit to the Ivy League medical schools, please see attached Tab 5 Page 61 of 92, and Page 73 of 92, in the section entitled "**The Trump Vaccine.**"

In the outer sleeve **memo**, I mentioned the death of 'Baby Alex.' We thank new Twitter owner, Mr. Elon Musk, for allowing this discussion; such would not have survived the prior Bolshevik-styled mRNA-promoting censorship. 2. Backstory: In 2021 the baby's parents had a close family friend die of a heart attack shortly after she received her Covid—19 vaccine. By all accounts their friend was healthy and her death caused alarm bells to go off about the safety of the mRNA vaccine.

 **Defeat The Mandates** @dchomecoming · Dec 13

3. Because of their experience with their family friend, they wanted to make sure Baby Alex had unvaccinated blood for his transfusion. So they found match through a member at their church and paid to have the proper protocol take place for Alex to receive that donors blood.

 **Defeat The Mandates** @dchomecoming · Dec 13

4. However, when it came time for the hospital to initiate the transfusion the doctors and nurses claimed they were unable to locate the unvaccinated donors blood the parents had procured. So without the parents consent they took blood from the hospitals general stockpile.

 **Defeat The Mandates** @dchomecoming · Dec 13

5. The doctors and nurses assured the parents that Baby Alex would be fine—and told them babies rarely, if ever get blood clots.

Continued on next page.

6. Shortly after the transfusion, Baby Alex developed a large blood clot. The blood clot ran from his knee all the way up to his heart. The hospital changed their tune saying babies get blood clots all the time and this was normal.

8. Just 12 days later, Baby Alex sadly passed away as a result of the large blood clot.

9. Now the Sacred Heart Childrens Hospital, claims there's no record of Baby Alex being at the hospital-despite ample evidence, including pictures, medical bills, and his death certificate.

What is going on here?

Mrs. Jummai Nache? Ms. Claire Bridges? They did not receive mere mRNA-tainted blood, **they were needed with high concentration mRNA, and multiple times!** But if low concentration mRNA-tainted transfusions can **kill**, then what medical argument can Mr. Bourla spew as a defense on what caused the congealing of blood in his mRNA victims, and the later horror of amputations! **Note Item 7 above:** Pfizer use of the accepted phrase “blood clot” is a diversion. If these were merely blood clots, then blood thinner would be effective . . . it is well-known, in the context of numerous mRNA victims, that the latter is utterly **ineffective**.

Conclusion

In several of the attached tabs you will find my increasingly-confirmed assertion :

“The so-called ‘COVID-19 vaccine’ is not in response to the SARS-CoV-2 virus; but the exact opposite!”

To assist with the veracity of my assertion, I am proposing (for multiple legal and legislative settings) the sworn testimony from former HHS Director Dr. Rick Bright, who unabashedly declared at a closed-door meeting, **within walking distance of Mr. Bourla’s Pfizer headquarters in New York City:**

*“ There might be a need, or even an urgent call for **an entity of excitement** out there, that’s completely disruptive, that’s not beholden to bureaucratic strings and processes ... But it is not too crazy to think that **an outbreak of a novel avian virus could occur in China somewhere.**”*

Please note that Mr. Fauci was seated right next to Dr. Bright when the latter made the above declaration . . . **on 29 October 2019 !! Certainly this contextualizes what really happened in Wuhan a few weeks later.**

Reference 1, HR 9366, admonishes as follows: “. . . the vaccine was administered without first obtaining from the person receiving the vaccine the **informed consent** of that person.”

When I review “COVID” with lay people; the Dr. Bright quote above, and *especially* the issue of liability immunity, they instantly recognize that they were not offered informed consent. **Mrs. Jummai Nache? Ms. Claire Bridges? Indeed, the parents of Baby Alex were in-fact openly denied informed consent!**

Please feel free to contact me any time.

Respectfully yours,

Paul V. Sheridan
