Subject 1: Mrs. Jummai Nache (versus the 'Willful Misconduct' of one-size-fits-all)
Subject 2: Testimony of the Nache Family and Dr. Gregory Hall before the US Congress
Reference: Patient-Centered Clinical Care for African Americans: A Concise, Evidence-Based Guide to Important Differences and Better Outcomes

Dear Dr. Hall:

Thank you for your efforts and bravery in the writing of the Reference. Shortly after its publication, the University of Minnesota mandated that nurse Mrs. Jummai Nache be injected with the needles manufactured by the following individual:

As you are aware, the so-called COVID-19 mRNA “clinical trials,” that were hurriedly deployed under the farce called Operation Warp Speed, made no distinctions, such as ‘Patient-Centered’ vaccines. Mr. Albert Bourla, former President Donald Trump, Mr. Anthony Fauci, Ivy League presidents, and so many more luminaries instead deployed a one-size-fits-all “vaccine” concoction that had previously been rejected, if for no other reason than the *immediate* deaths during the SARS-CoV-1 animal trials. Persons horribly afflicted with their wares was/is Mrs. Jummai Nache and her family:

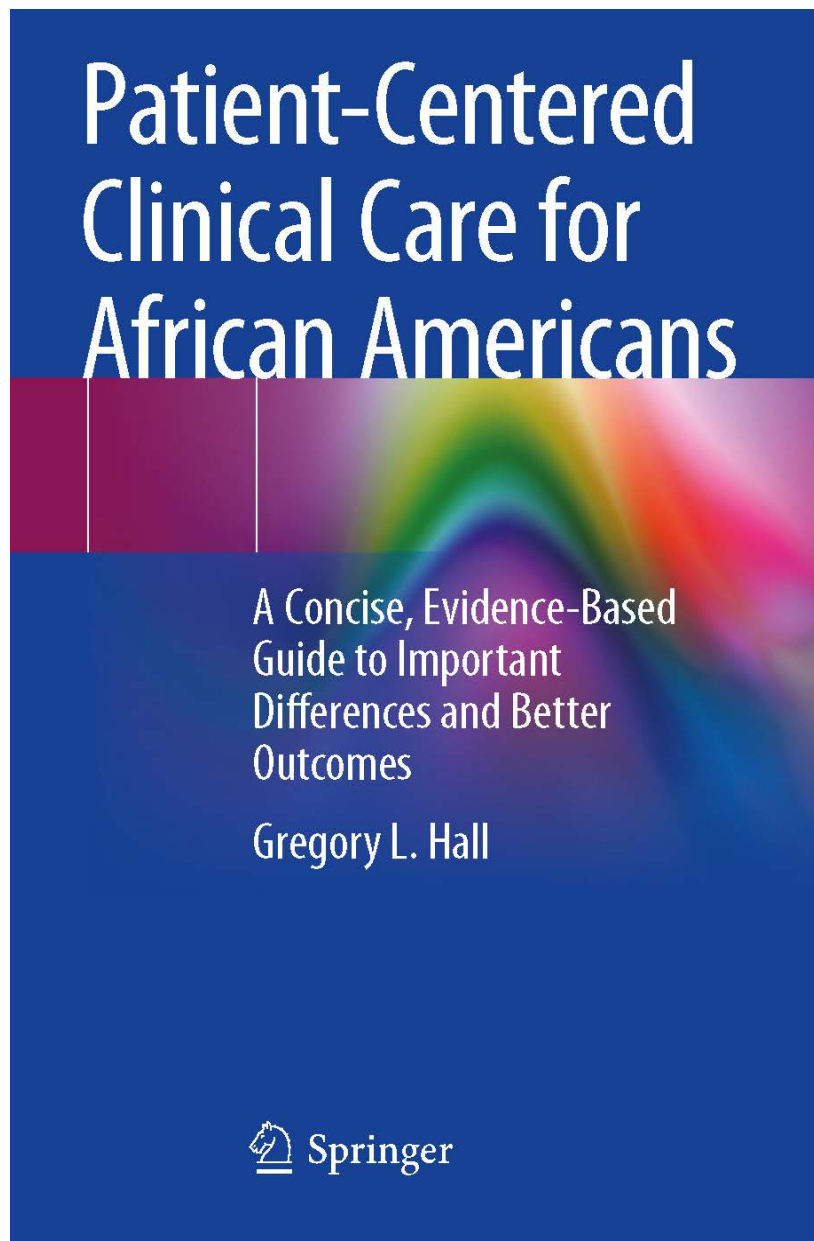

On Page 36 of 50 (enclosed hard-copy, cover-letter-only) of my 19 January 2022 letter (to the individual pictured next) I introduced the Nache afflictions in a time-sequenced photographic review:

I concluded that affliction section on Page 44 of 50, with a summary remark at-bottom. Please note that Ohio Congressman Jim Jordan is an open courtesy copy, and in-receipt of my 19 January 2022 letter.

On the enclosed USB drive I am sharing a highly-thrifted version of my COVID-19 letters file. I first introduced the horrors wrought upon Mrs. Nache on Page 39 in my joint letter (to Mr. Anthony Fauci and Martha Pollack of Cornell University) of 27 August 2021 . . . a full year ago (Please see #21 and #22).

Regarding, and in the context of your very good and timely book; which contains a theme **not** considered for one nano-second by Mr. Bourla or Mr. Fauci or Ms. Birx or Operation Warp Speed . . .

. . . I am proposing Subject 2.

I am proposing, in the interest of true medical progress, that a Congressional hearing (of existing or dedicated format) be held in short-order to discuss and document **the dire need for Patient Centered Clinical Care**; not merely in the context of gravely needed justice for the Nache family, but as portent for competent medical education and practice; immediately and evermore.

Regarding the justice needed for the Nache family, and so many more of similar mRNA “vaccine” induced misfortune, the knowledge that physiological and genetic differences should have, but did not induce dedicated and distinct medical practice and medicinal prescription comprises, in my view, just another example of what the PREP Acts defines as “Willful Misconduct.” **That is, the physiological, genetic, cultural and social differences of the African American community were known but ignored in the tyrannical deployment of the Pfizer mRNA contraptions worldwide. The exemplar of that criminality is the affliction exacted upon Mrs. Jummai Nache and her family.**

Specifying that exemplar, I had contextualized the ‘Willful Misconduct’ exception to “Liability Immunity” during my recent interview with Mr. Stew Peters (please see ‘Video’ file on enclosed USB drive).

Your comments are welcome; please feel free to contact me at any time.

Respectfully,

Paul V. Sheridan
