Subject: Tennessee Governor Executive Order 63 – 29 September 2020

Reference: My Letter of 18 September 2020 to President Donald Trump

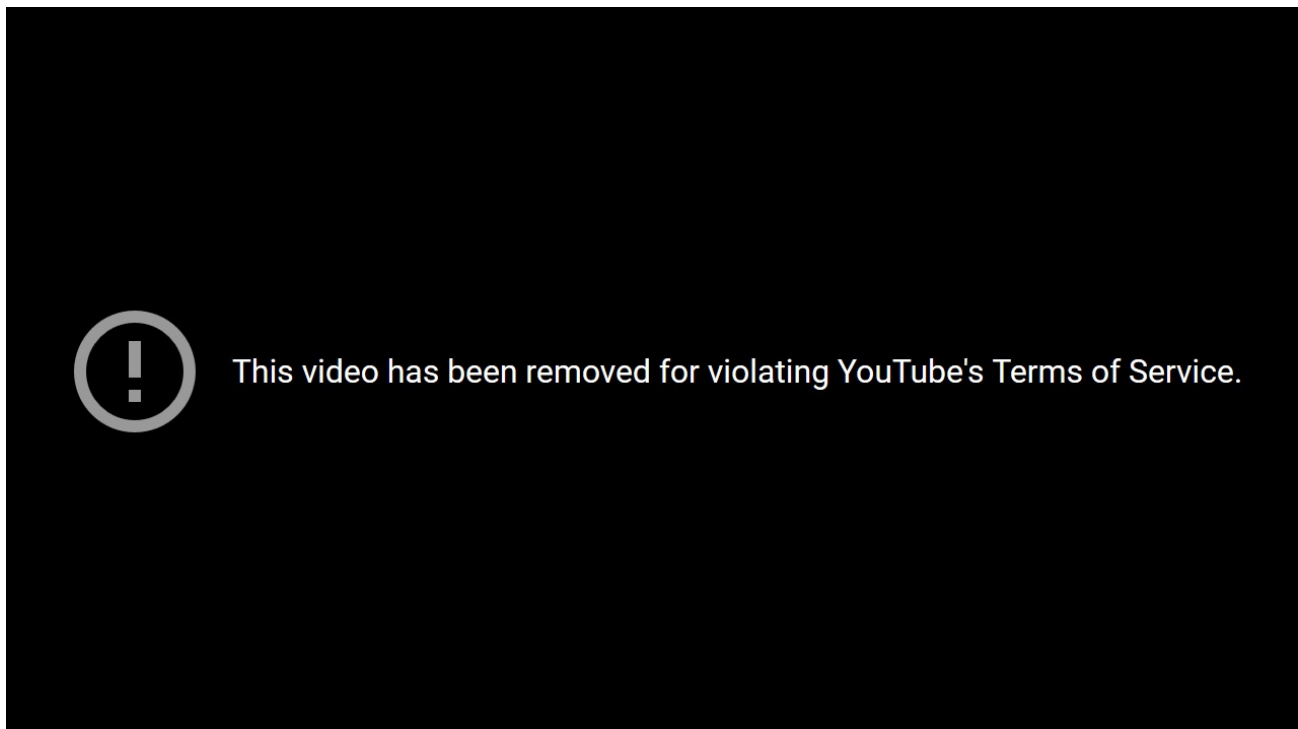

Dear Governor Lee:

Thank you for acting on true science rather than what passes-as and is promoted-as such. The good people of Tennessee are fortunate to have a governor of your stature/ethics; please share with them a commonplace assessment that not all of us are so lucky.

Under the colored tab you find a duplicate of the reference. As a courtesy to your busy schedule, I suggest that you read or at least peruse the cover letter and Tabs 1 and 2. To put these and our current national circumstances in perspective, I recently uploaded to my YouTube account a documentary film entitled:

Mask Facts: The Science & History of Masks in Medicine

The immediate response of that platform's chief is pictured next:

That YouTube chief is pictured next, her name is Susan Wojcicki :

That is, this person and her ilk are deciding what the good citizens of Tennessee are allowed to learn and see, while hiding behind the ruse that their platforms are “private.” If you would like to view the mask video censored by Ms. Wojcicki, you may download a copy from my server; approximately 52 minutes of facts:

Regarding your Executive Order 63 . . . please note the photographs / discussions on Pages 2/3 of 10, under attached Tab 1, in my letter to United States Attorney General William Barr . . .

The attached is yours to keep, share and file. Please do not hesitate to contact me at any time. See you on November 4, 2020.

Respectfully yours,

Paul V. Sheridan
