Subject : Demand for Release of *Un-Redacted* SARS-CoV-2 Anthony Fauci Emails from Calendar Year 2020 (Preliminary)

Reference 1: My Letter to Anthony Fauci of 21 July 2020

Reference 2: My Letter to Anthony Fauci of 9 June 2021

Dear Senator Peters / Dear Senator Stabenow:

A full year ago, in Reference 1, I asked the following simple, but deliberately broad question (screenshot):

During the US GOF moratorium, the total amount of US taxpayer funds that were deployed to the Wuhan Laboratory of Virology in China is TBD. One media report stated:

“In 2014, the NIH approved a grant to EcoHealth Alliance designated for research into ‘Understanding the Risk of Bat Coronavirus Emergence.’ The project involved collaborating with researchers at the Wuhan Institute of Virology to study coronaviruses in bats and the risk of potential transfer to humans.”

QUESTION 1

Is the essence of these media reports true; that while employed by the US taxpayer you were directly (or indirectly) connectable to the funding of research or the funding of a research facility that is connectable to the SARS-CoV-2 virus and the resulting COVID-19 pandemic?

On May 11, 2021, the Senate Committee on Health, Education, Labor, and Pensions held: “*An Update from Federal Officials on Efforts to Combat COVID-19.*” Prior to that hearing Senator Rand Paul was in receipt of Reference 1 (and much more from the undersigned). Senator Paul asked Fauci narrow questions.

Back in July 2020 . . . noting the above screenshot . . . I did *not* ask Fauci about “Gain-of-Function” (GOF). I did *not* ask about “Wuhan, China.” I did *not* ask about precise “funding amounts.” As a taxpayer and a citizen, I asked a simple relevant question; directed at the person that you two laud as a “health authority.” My broad wording was couched by previous experience with Fauci, and his penchant for word games . . .

Consistent with previous experiences, Fauci refused the decency of an intelligent, honest reply. The recent Subject email release is also consistent with experiences, but is merely preliminary with respect to the treason and other crimes committed by “America’s Doctor.”

The Efforts of American Patriots – Part 1 : Senator Rand Paul

May 11, 2021, Senate Committee on Health, Education, Labor, and Pensions; Senator Paul enduring the arrogance and rudeness of “America’s Doctor,” while asking about his long-term role in the funding of China’s GOF/bioweapon research programs:

Mr. Peters, from the lockdown state of Michigan, presided over a Senate hearing of May 25, 2021:

Insinuating Fauci’s GOF word games of May 11th, but offering respect to the taxpayer; Senator Ron Paul : ¹

*“ We may never know whether the pandemic arose from the lab in Wuhan (China), but we do know that, so far, no intermediate animal host has been discovered. Thousands of animals at the wet market have been looked at; none of them have carried COVID-19. We have tried to infect COVID-19 into bats. It does not grow well in bats. **It seems most adapted and suitable for humans.** We may not know whether this ever arose out of a Wuhan lab, but I think gain-of-function research, where we take a deadly virus, sometimes much more deadly than COVID, and then we **increase its transmissibility** to mammals is wrong. In 2014, the NIH (National Institutes of Health) stopped all of this research.*

*I am using the same definition to say: **Any gain-of-function research should not be funded in China with US tax dollars, and I recommend a ‘Yes’ vote. Thank you.** ”*

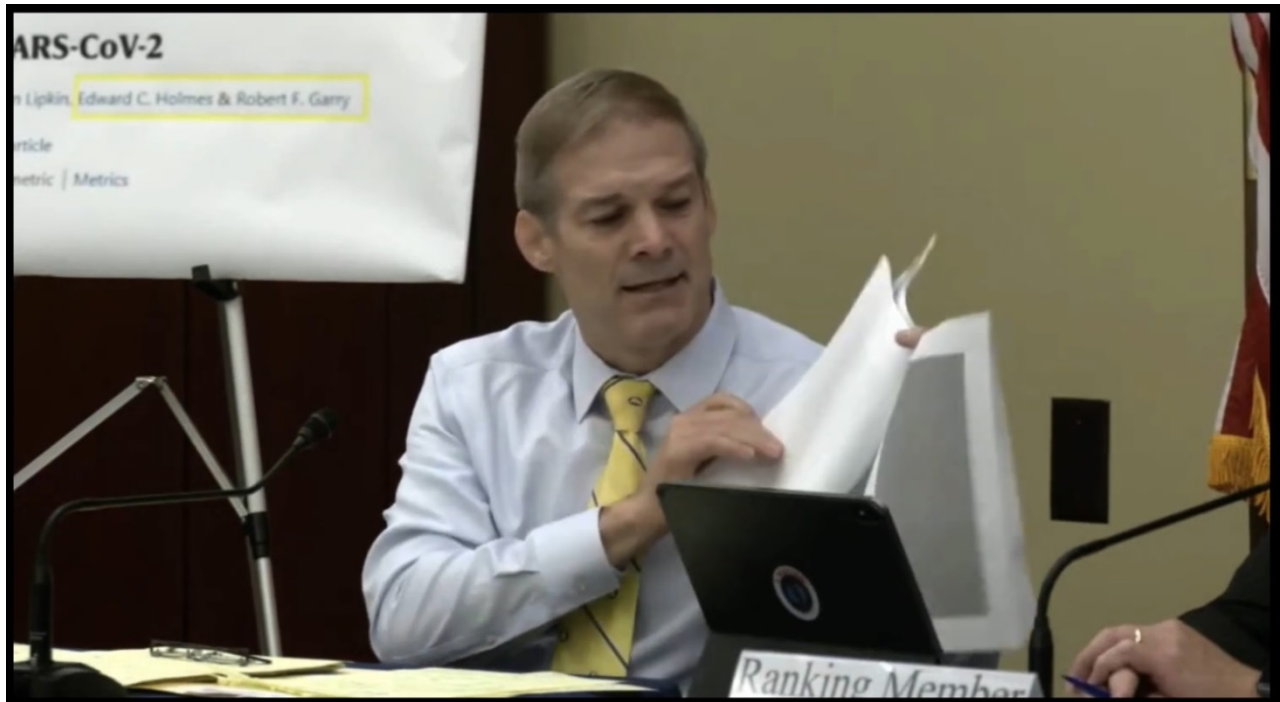

¹ An intro to the “contribution” that Mr. Peters has rendered in behalf of the taxpayer, in the context of COVID-19, please see Page 3 of 22: <https://pvsheridan.com/sheridan2fauci-2-21december2020.pdf>

The Efforts of American Patriots – Part 2 :
The GOP House Oversight and Reform Subcommittee on Select Coronavirus Crisis

The ‘GOP House Oversight and Reform Subcommittee on Select Coronavirus Crisis’ held June 29 2021, focused on the *Subject* emails; only a limited number have been released under several Freedom of Information Act (FOIA) demands upon Anthony Fauci of the National Institute of Allergy and Infectious Diseases (NIAID), Francois Collins of the National Institutes of Health (NIH), et al.

Congressman Steve Scalise, Congressman James Comer, Congresswoman Mariannette Miller-Meeks, Congressman Mark Green and Congressman Jim Jordan co-chaired the hearing.

Early in the hearing Congressman Jordan discussed and displayed various Subject emails, most notably those dated on-or-about Sunday, February 2, 2020, **entitled Teleconference :**

The Subject emails describe a crisis; what the congressman characterized (with respect to Fauci) as:

“The house is on fire!”

However, regarding these email participants, one asks, “What crisis?” What house, exactly, is on fire?

In truth, their concern had NO CONNECTION WHATSOEVER TO THE SAFETY & WELL-BEING OF GLOBAL HUMANITY. The participants were concerned that their activities would be revealed; **their concern was for themselves.** These “health authorities,” these follow-the-science experts were concerned that they would be exposed as responsible-for what was about to befall the entire planet! As Congressman Jordan declared, regarding the Fauci house fire :

“Notice the focus!”

The Efforts of American Patriots – Part 2 :**The GOP House Oversight and Reform Subcommittee on Select Coronavirus Crisis – conclusion**

Not later than January 2020, the following five facts were known to Fauci; the charlatan that the so-called news media gushes as “America’s Doctor.” Quoting Congressman Jordan: ²

1. “Dr. Fauci knows that there is a lethal virus on the loose, that started in Wuhan, China.”
2. “He (Fauci) knows American taxpayers have funded Gain of Function research in Wuhan, China.”
3. “He (Fauci) knows that the research grant did not go through the required oversight board.”
4. “He (Fauci) knows the virus looks ‘engineered,’ and ‘is not consistent with evolutionary theory.’ ”
5. “He (Fauci) knows he may have ties to the work in Wuhan, China.”

May have ties?! For perspective, regarding facts that patriot members of Congress and the Senate are *finally* recognizing; dated July 21 2020, Pages 30 and 31 of Reference 1 contained these samples:

SCIENCE | CORONAVIRUS COVERAGE

Fauci: No scientific evidence the coronavirus was made in a Chinese lab

In an exclusive interview, the face of America’s COVID-19 response cautions against the rush for states to reopen, and offers his tips for handling the pandemic’s information deluge.

NO SCRUTINY Wuhan coronavirus lab may **DODGE** investigation as WHO team hunting for origin of pandemic won’t bother visiting

² Pages 5 thru 13 in Reference 2, the January 2020 evidence, provided by Fauci as part of a ‘mandatory vaccination’ promotional stunt orchestrated at closed-door session at my alma mater, Cornell University, in October 2020.

The Efforts of American Patriots – Part 3 :
Senator Ron Johnson COVID-19 “Vaccine” Victims Forum of June 28 2021

In essence, according to the buffoon, Governor Tony Evers of Wisconsin . . .

. . . the young lady pictured next, **Ms. Candace Hayden of Detroit, Michigan**, is a liar:

Taking COVID-19 to new political lows (assuming that is even possible), the self-absorbed Governor Evers and his “health commissioner” declared of the Senator Johnson forum:

“reckless and irresponsible”

“misleading concerns”

At his website, the buffoon Governor Evers proclaims, “*I’ve been an educator my entire adult life.*” But when Michigan’s Ms. Hayden wished to educate the Wisconsin public regarding the adverse effects the so-called COVID-19 “vaccine” has had on her previously healthy life; now education is “*reckless and irresponsible,*” now the health & well-being of victims like Ms. Hayden amount to “*misleading concerns.*”

In the interest of **educating the insensitive buffoon from Wisconsin**, we conclude Part 3 with review of the following well-known grammar-school-level headlines and facts:

**Demand for Release of Un-Redacted SARS-CoV-2 Anthony Fauci Emails
from Calendar Year 2020 (Preliminary)**

Both Reference 1 and 2 contain the following closed-door quote from “America’s Doctor.”

“There will be a challenge (for) the coming Administration in the arena of infectious diseases, both chronic infectious diseases in the sense of already ongoing disease, and we have certainly a large burden of that, but also there will be a surprise outbreak.”

(Please confer with Mr. Fauci for the exact date, approx January 2017.)

The Attachment to this letter is a sample of the emails that were reviewed by Congressman Jim Jordan on June 29, 2021 in Washington, DC. Anthony Fauci was openly invited, but declined to attend.

As senators that make claims of ‘public service,’ and make claims of being representative of my person and Michigan citizens such as Ms. Candice Hayden, I hereby demand that you make a formal request to the NIAID and the NIH for release of *un-redacted* copies of *all* subject emails. This Subject is preliminary.

Please do not hesitate to contact me at any time.

Cordially,

Paul V. Sheridan
