Subject: The “Law & Order” Presidential Candidacy of Donald J. Trump (3 November 2020)
Reference: My Letter to United States Attorney General William F. Barr of 28 August 2020

Dear Mr. President:

You cannot campaign or preside with credibility as the Law & Order president **while coddling a criminal** in your midst; in your inner circle:

Your phrase “inherited him” might be appropriate to a stray animal that you decided to take on.

Your “inherited him” phrase should *not* be in-reference to a person that resides in one of the most crucial and powerful positions in your Administration. That position should be staffed with a person **openly and enthusiastically praised by you** . . . it should be someone with a reputation for selfless public service to America, a record untainted by the mere possibility of surreptitious agenda; the person should possess an unrivaled and unassailable history of professional conduct and competence . . .

Within walking distance from the above photograph, black body bags with the corpses of people that were victimized by (what has been labeled as) “SARS-CoV-2” were being dumped into a huge pile at a hidden loading dock in our birth-town of New York City . . . **do you remember complaining about that scene?**

With your “body bags” complaint in-mind, we now connect the vileness of the above photograph to an interview of a person that DOES HAVE a reputation for selfless public service, a person that DOES HAVE a record untainted by surreptitious agenda; a person that DOES HAVE an unrivaled and unassailable history of professional conduct and competence . . . so-much-so that reportedly the Chinese Communist Party (CCP) has threatened her life: **Dr. Li-Meng Yan:**

To make that **stark** comparative connection, between Dr. Anthony Fauci versus Dr. Li-Meng Yan, we contrast headlines that are favored and actively promoted by the former:

SCIENCE | CORONAVIRUS COVERAGE

Fauci: No scientific evidence the coronavirus was made in a Chinese lab

In an exclusive interview, the face of America's COVID-19 response cautions against the rush for states to reopen, and offers his tips for handling the pandemic's information deluge.

NO SCRUTINY Wuhan coronavirus lab may **DODGE** investigation as **WHO** team hunting for origin of pandemic won't bother visiting

In another contrast, given the above types of headlines and the headline atop the next page, as far as we know the CCP has not threatened Dr. Anthony "*inherited him*" Fauci . . .

 CRIME SCENE DO NOT CROSS

Dr. Fauci backed funding for controversial Wuhan lab studying origin of coronavirus

By [Joe Tacopino](#) April 29, 2020 | 1:14am | Updated

“There will be a challenge (for) the coming Administration in the arena of infectious diseases, both chronic infectious diseases in the sense of already ongoing disease, and we have certainly a large burden of that, but also there will be a surprise outbreak.”

(Please confer with Mr. Fauci for the exact date, approx January 2017.)

With obvious implications of the above photograph, wherein so-called public servants are catering to an avowed global de-population multi-billionaire globalist, we emphasize a few recent headlines:

1. **New CDC Report Shows 94% of COVID-19 Deaths in U.S. had Contributing Conditions:**
“According to the report, only 6% of deaths have COVID-19 as the only cause mentioned, revealing that 94% of patients who died from coronavirus also had other ‘health conditions and contributing causes.’”
2. **New York Times: Your Coronavirus Test Is Positive. Maybe It Shouldn’t Be:**
“Some of the nation’s leading public health experts are raising a new concern in the endless debate over coronavirus testing in the United States: The standard tests are diagnosing huge numbers of people who may be carrying relatively insignificant amounts of the virus. Most of these people are not likely to be contagious . . . (please see Fauci quote next page).
3. **Study: COVID-19 Lockdowns Over 10 Times More Deadly Than Pandemic Itself:**
“Simply put, we have drawn upon existing economic studies on the health effects of unemployment to calculate an estimate of how many years of life will have been lost due to the lockdowns in the US, and have weighed this against an estimate of how many years of life will have been saved by the lockdowns. The results are nothing short of staggering... the lockdowns will end up costing Americans over 10 times as many years of life as they will (allegedly) save from the virus itself.”
4. **Attorney Files Lawsuit to Remove Gov. DeWine’s COVID-19 Emergency Order:**
“As the state continues to double down on this continued fraud, going so far as to create FEMA ‘concentration camps,’ we are shining the light...on the dark reality of the COVID response.”
5. **Judge Rules Pennsylvania Gov. Tom Wolf’s COVID-19 Shutdown Orders Unconstitutional:**
“The federal judge ruled forcing businesses to shut down entirely and Gov. Wolf’s stay-at-home order are both unconstitutional. Some business owners say they’ve been waiting to hear a ruling like this for months.”
6. **COVID-19 emails from Nashville Mayor’s Office Show Disturbing Revelation:**
“Emails between the mayor’s senior advisor and the health department reveal only a partial picture. But what they reveal is disturbing.”
7. **NIH Director: I Could Not Imagine Carrying Out Order to Fire Dr. Fauci:**
*“ ‘This is a remarkable scientist who has led NIH’s efforts in infectious disease with great distinction for more than 30 years and who continues to be our lead in vaccines...for Covid-19,’ Collins told STAT. ‘The idea of losing that leadership at this critical moment for our nation is **unthinkable.**’ ”*

Unthinkable!? Tens-of-thousands of body-bags associated with nursing home COVID-19 deaths; but that is not **unthinkable** for NIH Director Dr. Francis Collins? PCR testing protocols that are known to be misapplied, and exaggerated test results deployed as a fraud; but that is not **unthinkable** for Dr. Collins? Hundreds of thousands of American and global deaths known to be FALSELY attributed solely to “SARS-CoV-2,” but that is not **unthinkable** for Dr. Collins? Hundreds of peer-reviewed studies indicating that face masks are not effective and are indeed mostly harmful, but that is not **unthinkable** for Dr. Collins? An open courtesy copy recipient of my 21 July 2020 letter to his subordinate Dr. Fauci, but no response from Dr. Collins?

Perhaps we should assist Dr. Collins’ **thinking** with a quote from Dr. Anthony “*inherited him*” Fauci:

“We would really like to see the data, because if there is asymptomatic transmission (of “SARS-CoV-2”) it impacts certain policies that you do regarding screening, etcetera. But the one thing historically people need to realize, that even if there is some asymptomatic transmission, in all the history of respiratory borne viruses of any type, asymptomatic transmission has never been the driver of outbreaks. The driver of outbreaks is always a symptomatic person. Even if there is a rare asymptomatic person that might transmit, an epidemic is not driven by asymptomatic carriers.”

Given his emphatic statement; not reported by the Fake News Bolsheviks, combined with that photograph, are we to assume that Dr. Fauci is a “carrier”? And what are we to make of lockdown of the non-infected and/or the asymptomatic population, “mask mandates,” and the razing of your first term economy?

The Vaccine Canard : The Vested Interests and the Razing by Big Academia

With this title I am *not* referring to the studied opinion of Mr. Robert F. Kennedy Jr. . . . or that of Dr. Scott Atlas who was recently libeled by vaccine vested interests from Stanford University; his attorney Mr. Marc Kasowitz is demanding public retraction in lieu of a lawsuit for defamation.

But Big Pharma, Dr. Fauci, and Stanford University are not the only vaccine vested interests in focus. Nor is defamation the only legal issue. Legalities and Big Academia in-general are contextual.

One of the most vile, the most insidious prospects benefiting the vaccine vested interests, and their all-out push for global vaccination for “SARS-CoV-2” (for now) is the legal position they orchestrated through the United States Congress, and the counterparts in the United States Supreme Court (USSC).

Prior to November 2016, in *Mutual Pharmaceutical Co., Inc. v. Bartlett*, the USSC granted the defendant near blanket immunity, in essence declaring that Big Pharma “could not be held liable and did not have to pay anything at all,” to compensate for the horrific health outcomes of a defective drug. A convenient legislative precursor to this legal ruling; the Public Readiness and Emergency Preparedness Act of 2005.

The ongoing legal and rhetoric details would over-burden this instant letter, but this must be personal: If Mr. Barron Trump, or First Lady Melania Trump, or Mr. Eric Trump, or Ms. Tiffany Trump are vaccinated, and later develop health problems (or death) which can be directly connected to a fast-tracked and faulty vaccine, your legal recourse against Big Pharma is basically and increasingly non-existent. **In *your* pro-vaccine campaign rhetoric, you never mention this legal reality to the voters.**

One of the most notorious vaccine vested interests, the person chaperoned by Collins and Fauci, posed in the middle of them on Page 5 above, is globalist Mr. Bill Gates. On the campus of my alma mater, Cornell University; a building I have attended many times, Bill & Melinda Gates Hall:

It is not unreasonable to presume that the tens-of-millions-of-dollars of Gates' investment in Cornell will render not merely praise, but possibly undue influence, and in areas not directly connected to the overt purpose of Gates Hall. That is, my use of the word ‘investment’ is specific.

Under Tab 1 you will find my 28 August 2020 letter to U.S. Attorney General William P. Barr. On Page 9 you will find Item 3 (screenshot) :

3. **The ongoing issue of proposed mandatory global vaccinations, and the public pronouncements, practices, and policies that are being implemented to psychologically condition the populace and university students for enforcement of what has been properly coined as “medical tyranny.”**

The connection between Gates and the current president of Cornell University is not tentative; both are computer scientists. Under Tab 2 you find my letter to Dr. Fauci of 21 July 2020. You note that Cornell President Ms. Martha Pollack is an open recipient of my Fauci letter; received **long-prior to making the following utterly false declaration to the returning Cornell University students and staff :**

7/31/2020

Cornell Student Behavioral Compact

Until there is an effective vaccine for COVID-19, we live in a world of significantly enhanced community and personal health risks. The university cannot eliminate those risks, even with the best of planning. We can, however, work together to reduce those risks, and each member of our returning Cornell community must adopt a culture of shared responsibility for our safety and well-being. That will necessitate behaving, both on campus and off campus, in ways that at times will be difficult and may feel constrained, but are crucial both for Cornell and for the greater community in which we live. **The Cornell University Student Behavioral Compact 2020-2021 sets forth our behavioral expectations for Cornell students joining us in Ithaca for the 2020-2021 academic year in order to minimize transmission of COVID-19 and protect those most vulnerable to the virus. This Compact applies to all undergraduate, graduate and professional students who reside in or return to the greater Ithaca area and/or the Cornell University campus community for the 2020-2021 academic year.**

Mandatory Vaccination as a Requirement of University Admission

Purposely ignored, but already demonstrated globally, **the notion promoted by Pollack/Gates/Fauci** that the only way to reduce the risk of SARS-CoV-2 to our “community and personal health” is through a vaccine, is not merely mistaken; **it is a bold-faced lie.** Endemic to the lead-off words that Pollack approved for the ‘*Cornell Student Behavioral Compact*’ is a major but *unstated* vested interest agenda:

Through the undue influence and false rhetoric of vested interests, ranging from the Bill & Melinda Gates Foundation to Dr. Anthony Fauci to the World Health Organization to Big Pharma; and through the enactment of a legal / legislative frameworks that would also shield Big Academia from defective vaccine liabilities, their hidden agenda includes establishment of compulsory mandatory vaccination as a requirement for university admission. The steps already implemented embolden my suspicion that such is not merely incompetent, or merely theoretical, but part of a broad criminal conspiracy. I will not allow the historically great Cornell University, my alma mater, to be sullied by the motivations of selfish vested interests or the agendas of short-term clerks.

You are not the only person that inherited Dr. Anthony Fauci and his associates, and their deeds and “advice.” Returning to your 31 August assessment that you “inherited him,” please note Page 35 of Tab 2:

The truth is Dr. Fauci . . . a person with your academic and professional credentials, a person in your position, a person with your responsibility . . . your opinions and actions should be, historically and currently, impeccable, unassailable, and unimpeachable.

But in the opinion of some, that is not the case. Interviews of the type orchestrated by politically vested-interests such as Wolf Blitzer and CNN should not be occurring.

Ongoing headlines fortify my concerns; **especially the interview by Tucker Carlson of Dr. Li-Meng Yan** (Pages 2 - 6 above). Persons very knowledgeable, not limited to Dr. David Martin, have already openly declared that many crimes have been committed. In this context, please direct U.S. Attorney General William Barr to respond to my letter of 28 August 2020 (Tab 1).

I recognize that, at least at this time, complex intermingled international issues cloud what actions are open to you. But you cannot campaign or preside with credibility as the Law & Order president while coddling a criminal in your mist; in your inner circle. See you on November 4, 2020.

Respectfully yours,

Paul V. Sheridan
